

DAWES WOULD PUT GERMANY ON HER FEET

First Requirement He Tells Ex-
pert Committee, in Straight
Forward Speech at the
Opening Session

SPEECH APPROVED

Stabilization Necessary Before Try-
ing to Judge Paying Capa-
city—Wants Three Ses-
sions Daily

(By the Associated Press)
Paris, Jan. 14. — Brigadier Gen-
eral Charles G. Dawes, U. S. A., chair-
man of the first committee of experts
appointed by the reparations commis-
sion to consider the resources and
capacity of Germany looking to a so-
lution of the reparations problem, de-
livered a straight forward, hard hit-
ting speech at the opening of that
body today.

With characteristic forcefulness
General Dawes denounced "the in-
cessant misrepresentations and in-
evitable interjections of those foul
and carnal loving vultures—the na-
tionalistic demagogues of all coun-
tries who would exploit their pitiful
personalities out of a common mis-
fortune."

Germany Must Regain Stability.
The American plan, as briefly out-
lined by the chairman, consists of
stabilization of German currency and
balancing the German budget and, he
declared: "As the economic processes
of Germany under a stable currency
and with a balanced budget are re-
quired there will be demonstrated the
capacity of Germany to pay. Let us
first help Germany to get well."

A member of the British delega-
tion of the reparations commission,
commenting on the opening of the con-
ference, said: "The experts get off to
a breezy start." This expresses the
general sentiment in reparations and
diplomatic circles on the beginning of
the work of the experts.

General Dawes' "legendary en-
ergy," as M. Parthout put it, seemed
to send a draft of fresh air through-
out the reparations headquarters, which
activity since the commission was or-
ganized.

Nationalists Only Disapprovers.
"Can he keep up to it?" was a
question repeatedly asked around the
buildings, when it became known that
General Dawes would propose that
his colleagues work day and
night until they got somewhere with
the inquiry.

Other members of the delegations
are heartily with General Dawes in
the desire to make as short work as
possible of their tasks, but some of
them are frightened at the idea of
three sessions daily. The general has
conceded a point by agreeing that
the night meetings should be merely
informal personal exchanges of the
views between the members.

The impression made by General
Dawes' speech was in every way fa-
vorable, inside and outside of repa-
ration circles excepting in extreme na-
tionalistic quarters where his refer-
ence to "nationalistic demagogues"
aroused some slight commotion.

One of the British delegates said:
The impression was most favorably
the beginning of the discussions
argue well."

MAY PROBE FARMS AND MARKET ACTS

Reported Grant in Council in Con-
nection With Funds for
Slaughtered Cows

Albany, Jan. 14. — Legislative in-
vestigation of the state department of
farms and markets is asked in a resolu-
tion presented to the legislature to-
night by Assemblyman Louis A.
Cavell, Democrat, New York. A
committee consisting of three mem-
bers, according to the resolution,
will inquire into general agricultural
conditions in the state with a view of
reporting to the legislature, as
soon as possible, such changes in
management in administration and
changes in the farms and markets
as will remedy present condi-
tions.

Under the section of Governor
Smith's message in which the organ-
ization of the council of farms and
markets is termed "fundamentally
sound," Assemblyman Cavell, in his
resolution, recalls the report that "a
large executive officer of the depart-
ment of farms and markets has him-
self received several thousand dollars
of the appropriation for slaughter-
house camps."

In view of this report, the resolu-
tion calls for an inquiry into the
organization of the council of farms and
markets by the attorney general to deter-
mine whether there was any unlaw-
ful expenditure of funds and also to
ascertain the propriety of disburse-
ments. The resolution further calls on
the state that New York rapidly is
becoming known as an agricultural
state due to the departure of thou-
sands of farmers, brought about, ac-
cording to Assemblyman Cavell, by
a lack of cooperation on the part of
the agricultural administration of the
state government.

BOY RUNS TO DEATH WHEN COW KICKS OVER LANTERN

Little Falls, Jan. 14. —The well
intentioned plans of William F.
Gilbert, 11, to surprise his father
this morning by arising early and
milking the cows, ended in his
death today in the hospital here.
William's father, living on a farm
at Newville, near here, was awak-
ened by screams emanating from
the barn. He rushed from his bed
to the structure to find his young
son's clothing in flames ignited by
a lantern which he had set be-
side him while milking a cow. The
father was rushed in extinguish-
ing the blaze and the boy's burns
were so severe that death resulted.

MORE CONTROLS TO BE PUT INTO USE ON BIG RAILROADS

New Installations Will Nearly Triple
Mileage Protected on Class 1
Roads Under Old Order
of I. C. C.

Washington, Jan. 14. —Practically
every large railroad in the country
will be required before February,
1935, to equip substantial portions of
its mileage with automatic train con-
trol devices under the terms of an
interstate Commerce commission or-
der issued today.

The length of track on which pre-
vious orders of the commission have
required such installations is approxi-
mately tripled by the step, which
was taken as a result of several re-
cent orders of a type which the au-
tomatic control is designed to pre-
vent, such as that of the 20th cen-
tury limited on the New York Cen-
tral.

The order was addressed to 32 out-
of the 108 Class 1 railroads in the
country, these controlling more than
80 per cent of the total mileage in
the United States. Of the 32 rail-
roads, 45 are required for the first
time to equip one full length pas-
senger division along their lines with
devices. The other 47, which have
either installed such devices on one
division or are engaged in so doing,
are required to make the addition
on the second division by the same
date.

The automatic train control de-
vices included in the order are in-
tended to make it impossible for an
engineer either by intention, neg-
lect, or accident to take his train by
a block or other signal requiring him
to stop. Prevention of both rear
and head on collisions is contem-
plated.

Several inventions and group of
inventions accomplishing the desired
purpose have been tentatively ap-
proved by commission engineers and
by railroads engaged in testing their
operation.

CHILDREN MARCH THROUGH THICK SMOKE TO SAFETY

Newark, N. Y., Jan. 14. — Several
hundred children were marched
through thick smoke to safety this
afternoon when the new Lincoln
school caught fire. All the pupils
escaped unscathed. The school rooms
and basement were slightly damag-
ed by the blaze, which originated in
a pile of waste paper in the base-
ment. The damage amounted to
\$2,000.

One of the club rooms was shut
off by smoke. The children in this
room were trapped for a few min-
utes until all the others had escaped
from the building. Then the teach-
ers, led by Principal E. J. Cunning-
ham, reentered the building and es-
corted the trapped children to safety.

RESCUE AMERICAN MISSIONARY

(By the Associated Press)

Peking, Jan. 13. — Mrs. Julian Kileen,
American missionary kidnapped by
bandits about two weeks ago, has
been rescued, according to advices re-
ceived here from Major John Mag-
ruder, military attaché of the Amer-
ican legation. Major Magruder re-
cently journeyed to the bandit-infes-
tered province to impress upon the
Chinese officials the necessity of tak-
ing action against the kidnappers.

Legislative Activities

Governor Smith sent to the legis-
lature a special message recom-
mending legislation to require state
wide licensing of motor vehicle op-
erators, central bureau of automo-
bile records, and a change in the sys-
tem of registration.

The nominations of General Char-
les White Berry as major general of
the National Guard, Matthias Nicoll,
as state commissioner of health,
and Stuart Greese as superin-
tendent of public works, John A.
Warren of White Plains as com-
missioner of the state police, and sev-
eral other minor appointments were
sent by the governor to the senate
for confirmation.

Administrative measures for con-
tinued reconstruction of the state
highway system were introduced in the
senate.

Repeal of the state boxing law, which
is in force since the present law,
would permit a much larger propo-
rtion to the receipts to be allotted to
the charities, thus relieving the ex-
cess of the state.

Abolition of the state boxing com-
mission was sought in two bills and a
resolution introduced in the legisla-
ture.

C. O. P. ROUTED BY COALITION WITHIN HOUSE

Insurgents and Democrats Join
Hands in Obtaining Repeal of
Rule Preventing Amend-
ments From Floor

ADOPTED IN 1911

After Showdown, Bitter Debate
Enacts on Proposal for Dis-
charge of Committees
From Handling Bills

Washington, Jan. 14. — House
Democrats and Republican insurgents
forming a coalition for the first time
this session, routed the Republican
organization today and repealed the
Underwood rule which practically
made it impossible to offer from the
floor important amendments to revenue
and tariff bills.

On motion of Representative Garrett,
the Democratic leader, the rule,
adopted in 1911 when the Democrats
controlled the house, was repealed by
a vote of 258 to 177. The Democrats
voted solidly for repeal, had the sup-
port of 24 Republicans, among them
the insurgents, and three others, while
Representative Longworth, the Republi-
can leader, and Chairman Snell of
the rule committee, urged retention
of the rule.

After the showdown—the first to
develop in the rules fight which will
continue tomorrow—the house became
involved in a bitter debate over pro-
posals for the discharge of committees
from consideration of legislation, but
took no action.

Discusses War Veterans Committee

On this proposition there is a dif-
ference of opinion between the Re-
publican organization and the Demo-
cratic-insurgent combination as to
the number of signatures which
should be required on petitions for
discharge.

While no opposition developed to-
day to the recommendation of the
rules committee for the creation of
a new house committee to handle
legislation affecting World War vet-
erans, there was some discussion as to
whether the committee also should
have jurisdiction over bills affecting
veterans of the Spanish-American war.
No decision was reached as to whether
the committee should be organized or
as to its exact powers.

BIG BATTLE WAGING BETWEEN MEXICANS

Huerta to Block Tampico Port—
British Cruiser Arrives
Off Coast

Washington, Jan. 14. —The advance
of Mexican federal troops against the
revolutionary army on the western
front began yesterday and will con-
tinue until the issue is decided, the
Mexican embassy said in a statement
today giving advices from Mexico
City.

The rebels who attacked Pachua
have been driven back and suffered
heavy losses, the statement contin-
ued.

Tehuacan was recaptured by the
federalists, the rebels retreating toward
Epazaco. The precipitous retreat was
halted near El Carmen plantation
and a battle has been in progress
there since yesterday afternoon.

Huerta Declares Tampico Blockade
(By the Associated Press)

Vera Cruz, by radio to Port Ar-
thur, Tex., Jan. 14.—Adolfo de la
Huerta, leader of the revolutionary
movement in Mexico, in a decree pub-
lished today, ordered the blockade of
Tampico, effective January 16. The
blockade will be maintained by the
squadron of the "revolutionary" lib-
erators which has sufficient vessels
to enforce it," the decree says.

British Cruiser Arrives.
New Orleans, La., Jan. 14.—A British
cruiser has arrived at Puerto
Mexico, in southern Vera Cruz, to
protect British interests, according
to E. S. Reynolds, one of the 12
Americans who arrived here today
from Puerto Mexico, aboard the
steamer Yamari. Puerto Mexico is
held by the revolutionaries.

BURNING LOVE THEFT CASE

Baltimore, Jan. 14. — Mrs. Mark
Featherstone, widow of Le-
land Feathers, proprietor of hotels at
Saratoga Springs and Palm Beach,
today was charged with charges
brought against her in an allegation
of affection suit by Mrs. Grace E.
Horton, wife of Ernest Horton, for-
merly employed as a chauffeur by the
Feathers family. When court was called
for the resumption of the trial, Judge
Edward C. Whelan dismissed the
suit on the ground that the plaintiff
had failed to submit evidence of suf-
ficient importance to warrant resu-
mation of the case to a jury.

CONFESSED MURDERING WIFE

Albany, O., Jan. 14. —William Mc-
Nott, 33, wealthy farmer, had today
confessed he had killed his wife,
Mrs. Katherine McNott, 63, discov-
ered her body and hid it in an aban-
doned corn crib two weeks ago.

McNott confessed at Wapakoneta,
where he was taken late today. The
confession followed 72 hours of three
degrees.

FIVE KILLED, TWO MISSING AT REFINERY EXPLOSION

Port Arthur, Tex., Jan. 14. —Six
men were killed, two are missing,
five were seriously injured and 22
slightly injured in an explosion of
16 high pressure stills at the
Texas company refinery here this
afternoon. The property loss was
estimated at from \$600,000 to
\$1,000,000.

The dead are from Beaumont
and Port Arthur. Two of the
more seriously injured are ex-
pected to die. It was said at the
hospital tonight. Twenty-two re-
ceived first aid treatment and were
sent to their homes.

TAX BILL MAY NOT PASS AT THIS SESSION

Repeal of Underwood Rule Opens
Bars to Numerous Amend-
ments to Measure From
Floor of House

Washington, Jan. 14. — Passage of
tax legislation at this session of con-
gress has been jeopardized, in the
opinion of Chairman Greene of the
house ways and means committee,
by the action of the house today in
repealing the Underwood rule which
brought to restrict amendments from
the floor to revenue bills and to curb
debate.

After the house had revoked the
rule, Mr. Greene expressed the op-
inion that such a flood of amendments
might be offered to the revenue bill,
once it reaches the house, that action
might be indefinitely delayed.

"If the tax bill," Mr. Greene said,
"goes before the house controlled
only by the rules as amended today
a situation would prevail under which
it would be practically impossible to
pass it, even though a majority of the
house was in favor of it."

The ways and means committee dur-
ing the day began public hearings on
changes sought in the present revenue
law, a number of business repre-
sentatives appearing to argue for repeal
of various taxes, further drafting of
the bill of the committee will be sus-
pended pending completion of the
hearings which Chairman Greene
hopes will be accomplished by the
close of the week. Three weeks re-
main before the bill is scheduled to
be reported as directed by the
house Republican caucus.

Green McKinley Told M.M.

Democrats continue today to bom-
bard the Mellon tax revision plan,
Senator Harrison, Democrat, Missis-
sippi, charging in the senate that the
banks and railroads have joined with
the motion picture industry and cer-
tain newspapers in a campaign of
propaganda for the Mellon tax plan.

The Democratic national committee
also issued a statement attacking the
sur-tax features of the Mellon pro-
posal.

With reference to the rules change,
Mr. Greene declared: "Amendments
after amendment could be offered and
the result would be very much as
when the McKinley tariff bill was first
brought before the house and it was
found to be absolutely impossible to
make any progress. It would be per-
fectly easy for a small group to pro-
long discussion of the bill for more
than six months."

TWO BILLS SEEK BOXING STATUTE

Athletic Commission Would Go by
One Proposal—Other Per-
mits Amateur Bouts

Albany, Jan. 14. — Attacks on the
operation of the state boxing law,
were opened in the assembly tonight
with the introduction of two bills
aimed to do away with professional
bouts and a resolution calling for an
amendment of the present statute.

Republicans and Democrats united
in the attack. Bert Lord of Chenango,
Republican, introduced a measure
which would repeal the boxing law,
abolish the athletic commission and
give it 30 days within which to wind
up its business.

Alfred J. Kennedy of Queens intro-
duced a bill which would prohibit the
holding of boxing or wrestling
matches for prizes or purses, or where
admission is charged. This would per-
mit the continuation of amateur box-
ing only.

TOKIO FEELS NEW SEVERE QUAKE; PANIC SLIGHT

San Francisco, Jan. 14. — A
violent earthquake received tonight
by the Radio Corporation of
America from its receiving station
at Penzance, Japan, stated that a
strong earthquake struck Tokyo
and vicinity at 10 o'clock this
morning (Thursday).

Although no serious damage
was reported, the message stated
that persons were stopped at Tokyo-
Yamanashi and on the line between
Yokohama and Tokyo. Cries also
were reported at Fushiki and
Choshi. The land quake between
Tokushima and Tokyo, it was said,
had been interrupted. Although
communication was expected to
be restored shortly.

CROSSINGS AT GRADE SHOULD BE ELIMINATED

91 Persons Killed by Trains in
1923—4,000 Such Intersec-
tions in State Require
Removal at Once

PUBLIC CARELESS

Flagrant Disregard of Danger Signs
and Warnings Responsible
to Great Extent for
Fatal Wrecks

Albany, Jan. 14. — Increasing care-
lessness on the part of automobilists
and flagrant disregard of danger signs
and warnings is responsible to a great
extent for the large number of deaths
from grade crossing accidents, the
public service commission declared in
its annual report, submitted to the
legislature tonight. In spite of this
fact, however, the report emphasizes
elimination of such crossings is an
absolute necessity in keeping with
continued development of the state
highway system.

The commission renews its recom-
mendations of last year that provi-
sion be made for an independent sur-
vey of every grade crossing in the
state. The cost of such a series of
surveys, the commission estimates,
could be kept down to \$30,000 by co-
operation of engineering and inspec-
tion forces in the various state de-
partments interested.

91 Killed on Crossings

Of the 8,025 crossings at grade in
the state, 4,000 of them should be
done away with at once, the com-
mission declares. In connection with
the estimated total expense of \$100-
000,000 reference is made to last year's
report in which the commission recom-
mended that solution of the problem
may lie in the state's assuming
the initial financial burden by supply-
ing capital to perform the work. "For
the year ending June 30, 1933, the
report states, there were 719 grade
crossing accidents in the state, re-
sulting in the death of 91 persons,
and injury to 474 others. The num-
ber is the largest in the history of
the commission.

When a crossing is the subject of
legislation granting necessary power
to regulate the use of sub-metres for
regulating electricity supplied es-
pecially in a large New York city
apartment house, it also suggests
that with the increasing use of
electrical power in rural com-
munities, a sound basis must
soon be devised which will
secure service to the farmer and still
afford a reasonable profit. During
the calendar year ending December
31, the commission held 334 public
hearings, with 1,257 formal orders and
388 special preliminary orders issued.
Of the available appropriation of
\$110,268 the commission expended
for the past fiscal year \$721,238.

GENERAL BERRY TO HEAD GUARDSMEN

Recess Appointment of Governor
Confirmed—Nicoll Health
Commissioner

Albany, Jan. 14. — Eleven recess
appointments to state offices were
sent for confirmation to the senate
tonight by Governor Smith. Among
them were the names of Major Gen-
eral Charles W. Berry of Brooklyn
as commander of the New York Na-
tional guard; Dr. Matthias Nicoll, Jr.,
of Albany as commissioner of health;
Colonel Frederick Stuart Greese of
Saratoga Springs as superintendent of the
department of state police.

Others included I. M. Lincoln of
Albany living on four western New
York state reservations; Edward W.
McMahon of Brooklyn as member of
the commission on uniform state
laws; Edward H. Trell of Little Falls
as member of the board of commis-
sioners of the Herkimer home; Rev.
Frank J. Curley of Syracuse as man-
ager of the Syracuse State School for
Mental Defectives; Mary A. (Mrs.
George E.) Johnson of Endicott as
manager of the Binghamton State
hospital; Daniel C. Daley of Buffalo
and Barney W. Bowerlin of Mount
Morris as managers of the Craig col-
ony; and John L. Snyder of Irving as
a member of the Thomas Indian
school.

The senate without reference to
committee, confirmed immediately the
nominations of General Berry and Dr.
Nicoll, but upon motion of Senator
Lusk, Republican leader, sent Colonel
Greese's name to the finance committee.
Senator Lusk last year made a
vicious but futile attempt to block
Greese's appointment as state high-
way commissioner.

All the other nominations were re-
ferred to the finance committee.

WANTS N. Y. POLICE PROBE

Albany, Jan. 14. — Charging that
the New York city police depart-
ment has become a "corrupt machine"
Senator Lusk, Democrat, Albany, re-
quested the state attorney general to
conduct an investigation into the
alleged crime to go on under the
aggravated assault law. A. Cavell,
Democrat, New York, tonight intro-
duced into the assembly a resolution
calling for an immediate legislative in-
quiry into the activities of the de-
partment.

I. C. C. MEN HOLD ENGINES; PENNSY TRAINS DELAYED

Indianapolis, Ind., Jan. 14. —
Passenger trains of the Pennsyl-
vania railroad system were delay-
ed in this city today from two
hours to indefinite periods when
inspectors of the Interstate Com-
merce commission ordered out of
service locomotives hauling the
trains.

The first section of the system's
crack New York-St. Louis train,
No. 31, on which an excess fare is
charged, arrived at 11:35 a. m.
and did not depart until 2:15 p.
m. It was then consolidated with
No. 21, another New York - St.
Louis through train which had ar-
rived at 10:55 a. m.

INCOME TAX RATE IN NEW YORK MAY NOT BE LOWERED

Plan Under Advisement Would
Give Bigger Proportion of Le-
calties and Permit Low-
er Land Levies

Albany, Jan. 14. — Republican
leaders in the legislature are con-
sidering a state income tax plan
which, while not reducing the tax
rate, would, they maintain, prove a
substantial benefit to the taxpayers
in general and to the home owner,
real estate owner, and farmer.

The plan has not yet been formu-
lated as a party policy, and its ad-
vocates will await public response to
the proposal before presenting it to
the legislature as part of the Republi-
can program.

In his message to the legislature,
Governor Smith recommended a 25
per cent reduction in the state in-
come tax. Under existing statutes,
half of the tax goes to the state and
the other half to the locality where
the taxpayer lives. In view of the
fact that the localities are depend-
ing upon their share of the tax, the
governor suggested that they have
two-thirds of the reduced tax, while
the other third would go to the state.

Would Benefit Majority

Senator Clayton Lusk, Republi-
can leader in the upper house, in
outlining the plan now under con-
sideration by legislative leaders of
his party, said tonight that under the
Mellon plan the federal government
would give income tax payers con-
siderable relief. A large percentage
of the state income tax, however, is
paid by real estate owners, who are
already bearing a heavy burden of
taxation. If the state income tax
is not lessened, he said, and a much
larger proportion of it, perhaps 75
per cent, or more, is turned back to
the localities, it would mean a reduc-
tion on taxes on real estate, which
will be of greater benefit to the ma-
jority of taxpayers.

"The farmer will profit by it," he
said, "as will the home owner with
a small income. Real estate owners
will benefit in consequence of a re-
duced tax on real property, and with
decreased taxes there should be a
corresponding decrease in rents."

ELIHU ROOT OPERATED UPON

New York, Jan. 14. — Elihu Root,
who today underwent an operation
for removal of a kidney stone, was
reported to be resting comfortably
tonight and his doctors said he would
be able to leave the hospital in the
course of three or four weeks.

Attending physicians said the opera-
tion was performed at Cooper's
old alms house. Mr. Root will be 75 years
old next month.

The Day In Washington

Victor Mordock, Kansas, resigned
from the federal trade commission.
The house ways and means com-
mittee began hearings on the tax bill.
Democrats and insurgents in the
house combined and overthrew the
Underwood rule limiting amendments
to tariff and revenue bills.

A senate sub-committee began an
investigation of "alcoholic milk."
Senator Robinson, Democratic leader,
delivered a Democratic platform
speech at the annual convention of
the National Association of State
Legislatures.

"Favorable control" was charged
against the Alabama Power company
by Senator McKellar, Democrat, Ten-
nessee, in opposing the bill of southern
power interests for Muscle Shoals.

The Ten Not House of Representatives
was debated in the senate, with Sen-
ator Griffin, Democrat, Alabama,
charging the case constituted the
"most gross and flagrant" participation
in the movement.

Presidential prospects and choice
of a convention was discussed and
by Democratic national committee
members preliminary to the committee
meeting tomorrow.

SMITH WOULD LICENSE ALL AUTO DRIVERS

More Than 5,000 Will Be Killed
in Highway Accidents, Unless
Radical Changes Made
in Statutes

URGES NEW BUREAU

Special Message of Governor Also
Calls for Extension of Power
to Revoke Licenses of
Careless Persons

Albany, Jan. 14. —More than 5,000
persons will be killed in New York
state in the next ten years as the
result of automobile accidents if the
state does not radically change its
policy regarding prevention of such
fatalities, Governor Smith informed
the legislature tonight in his message
recommending drastic regulation of
owners and operators of motor ve-
hicles.

Enactment of a statewide opera-
tor and driver license law; creation
of a central bureau of records and
information at Albany, preferably
under the jurisdiction of the depart-
ment of state police; and extension
of the power of license revocation,
are the three steps urged by the gov-
ernor in the campaign to lower the
death rate due directly to motor ve-
hicles.

The almost incomprehensible growth
in the number of automobiles oper-
ated on the highways of New York state
during the past ten years was given
by the governor as one of the chief
reasons for the increase in accidents.
Where in 1913 there were but 124,000
vehicles registered in the state, in
1933 the number had risen to 1,323,
877, an increase of 816 per cent.
Based on figures of the past, the gov-
ernor estimates that the vehicles
will number at least 1,766,000 by
1935, and more than 2,600,000 ten
years from now.

Cites Massachusetts Experiment

In all this time, Massachusetts
has been a conspicuous example in
the mitigation of motor and high-
way ways. While not all of the details
of any considerable percentage of
them are inapplicable, the governor
declares, one reckless operator out
of 1,000,000 leaves all the others at
his mercy. Statistics for the past
year, reveals the danger, that there
are sufficient incompetent and reck-
less drivers to place everybody

Sports of 1924

By FEO MURRAY

Ski Jumping

Skating has grown rapidly in popularity in the United States during the last ten years, and skis are now common sights wherever the snow lies. Instead of being confined to museums, skiing (you pronounce it "shoeling"), was originated in Norway. It is the national sport of that country, where it is the usual thing for children, three years old, as well as grandmothers and grandfathers, to be gliding around on skis. In about two weeks the United States ski team will be competing in the Olympic contests at Chamonix in the French Alps. Up to the mid winter, our contestants have had a hard time finding snow to train in, and so were considerably handicapped. Last year Andrew Haugen of Indianapolis won the National ski championship with 272 points. His longest jump was 122 feet. He has been the National champion six times. Other prominent ski jumpers of the 1923 season,

some of whom should figure in the Olympic contests, are Harry Hen, Carl Nelson and "Alp" Jensen of the Norge Ski club of Chicago, and Nels Nelson of Revelstoke, B. C. Nelson holds the amateur record of 281 feet. Every February Dartmouth holds a winter carnival with intercollegiate championships in skiing and snow shoeing. T. D. Frost (appropriate name) was last year's champion. The world's record for ski jumping, professional according to some authorities is 222 feet, made in 1921 by Harry Hall of Detroit. Crown Prince Olaf of Norway, twenty-one years old, is an enthusiastic participant in the sport, and has been invited to compete in the Northwest ski tournament at Minneapolis on February 2. Ski jumping, or racing on skis behind horses, is an exciting winter sport as is sailing on skis before the wind. (Copyright, 1924, Associated Editors)

Daddy's Evening Fairy Tale

By MARY GRHAM BOWEN

MISS WITCH-HAZEL

"In the fall of the year," said Daddy, "there are yellow flowers to be seen on bushes which have large and thick leaves."

"These flowers are always of the twigs of these bushes and they are known as the Witch-Hazel flowers."

"There are some that flower in the spring but the ones of which I'm speaking flower in the fall."

"Miss Witch-Hazel Bush was dressed up in her very best, and very, very proud was she."

"I am going to have an exciting time next summer," she said.

"Instead of wearing a flowery dress I shall think only of fruit and I will shoot forth seeds as my fruit pods burst and in this way more witch-hazel shrubs will be able to grow up."

"I really live for that wonderful time when I can shoot forth these seeds. I shoot them some distance. It is most exciting."

"I hope you will always be able to recognize me—which means that I hope you will always be able to know who I am when you see me."

"One of the best ways of telling who I am is to see if my flowers have long yellow strap-shaped petals which come when my leaves are falling."

"My leaves are broad and have straight veins. My leaves and bark go to make up my bark in the medicine closet."

"Yes, you've all heard of witch-hazel. Well, witch-hazel got its name from our family, for we make witch-hazel."

"We're not the kind either that creatures turn up their noses at as they do old casted old and some of those disagreeable things."

"We're not to be swallowed. No indeed. That's where we are so nice."

"We don't go about with that manner which castor oil has as though to say: 'You'll be sick if you don't take us. Maybe we'll make you sick for awhile, but in the end we will make you well.'"

"We don't make anyone sick first. No, we're not like that. As I said, we don't want to be swallowed—I mean my Medicine Closet relative doesn't want to be swallowed."

"Which-hazel was never supposed to be swallowed. No, it can be used for burns and sprains and all kinds of sore."

"We're not to be swallowed. No indeed. That's where we are so nice."

"We help gentlemen after shaving—they can put our Medicine Closet Ointment over their faces and so keep their faces from feeling rough."

"Oh, we're very useful. Hence, in my opinion, aren't houses without us."

"We help headaches. We don't do people any harm either the way some horrid medicines will do."

"No, we're cool and pleasant when some of the drops of the Witch-Hazel family are put upon a big handkerchief and then put upon the aching head."

"No horrible swelling of us! We're to be used outside and not taken inside."

"So," said Daddy, "you may see Witch-Hazel shrubs some day and you will know that it is from the witch-hazel plants that witch-hazel comes and that Miss Witch-Hazel is going to shoot forth seeds from her fruit pods next summer. And, too, that she is already looking forward to that day."

Only Half the Pain. Seven-year-old Johnnie was afflicted with parrot, and screamed frantically with the pain.

"Hush, Johnnie, dear," said nurse soothingly. "Don't cry so; it only makes it worse. Remember how bravely baby Willie behaved when he had colic. He never cried like this."

"Hush," said Johnnie indignantly; "what does that baby know about colic? His colic isn't more than half as big as mine."

Acute. Two students on a train were talking about their ability to see and hear. The one says: "Do you see that burg over there on the horizon?"

"Yes," said the other, "I can see that burg over there on the horizon."

Good Boy, All Night. "I don't like you to play with that new boy," said Mrs. Jonathan. "He should be a very good boy."

"Oh, yes, mother," said Jon, "he really is a very good boy. He's been in the reform school twice, and both times they let him out on account of good behavior."

INHERITANCE HE REFUSED SHARES

Garland's Gift Remains by \$79,000 Given Away Outright —Many Loans

New York, Jan. 14. — Charles Garland's inheritance of more than \$100,000, which he gave away a year and a half ago with the declaration that he didn't want it because he disapproved of the manner in which his father had acquired it, has been reduced by gifts and loans to \$246,178. It was announced Sunday by the American Fund of Public Service.

This organization took the Massachusetts man's inheritance a year ago to aid pioneering and experimental enterprises which have not yet enough backing to keep them going.

The report of the first year's operation of the fund shows that \$79,000 was given away outright and \$127,000 was loaned.

One-third of the money given away went to labor and radical publications, the report shows; another third went to research and workers' education and a third was distributed among legal defense, protection of minorities, educational propaganda and for strike relief.

How can teamwork be developed between the two guards?

Answered by W. L. LUSH

Coach at Naval Academy for several years and now athletic director at St. John's college, Annapolis, Md.

Teamwork between the guards may be developed by a mutual understanding relative to the duties each is to perform.

Some teams play a four man offense and a defensive guard in his usual position, to protect the basket. The defensive guard is responsible primarily for his own opponent, but he should be able to take care of any offensive player who comes into his territory. When both guards cooperate in the offense, one must stay back while the other goes "down the court." Teamwork in this particular can be adjusted as follows: If the right guard intercepts the ball he enters into the offense. This is the cue for the left guard to assume a defensive position. If one guard advances beyond the center of the floor, the other guard must stay back to protect the goal.

ROB MOVIE THEATRE WITH 1,800 SPECTATORS PRESENT

New York, Jan. 14. — While 1,800 persons sat in a darkened moving picture theatre on the lower West side last night, two young men were in the front row, following the assistant manager as he entered an office underneath the stage, bound and gagged him and the theatre's manager, looted the safe of about \$2,500, and escaped.

Several minutes later the assistant manager was able to undo the knot of cords with which his feet had been tied, secure the key to the door which had been locked by the bandits and, holding it in his teeth, managed to open the door and tell of the robbery.

FRUITION CAUSE OF DISASTER. Pekin, Ill., Jan. 14. — The explosion in the starch works of the Corn Products factory here January 3, causing the death of 40 workmen, apparently originated from a fire caused by an overheated bearing in a conveyor box, according to a statement by state and federal investigators.

It is now a perfectly well-known fact that with the entrance into adolescence comes functioning of sex and sexual desire in the life of every normal man. The cravings are not unusual; they are normal, and are based on the desire for food. Furthermore, authorities are coming to see more clearly every day that in this very act functioning in all that is best for the boy as well as worst. It is, therefore, one of the very sacred obligations of father to meet this far-reaching need. If he doesn't know how—and that is the cause that is at the bottom of many of the troubles of the young man—let him go to the very best source for help in his family or profession.

The father of a normal adolescent boy has to open his own eyes to the fact that the sexual desire is a normal and healthy part of the boy's nature. The father should be the first to recognize this and to help the boy to understand it. The father should be the first to tell the boy that it is normal and healthy to have sexual desire. The father should be the first to tell the boy that it is normal and healthy to have sexual desire.

SCHEWENUS COURSE CLOSES

Last Number of High School Lecture Series to Be Presented January 22—Orange Institution Tuesday.

Schenvus, Jan. 14.—The last number of the Schenvus High School lecture series will be given Wednesday evening, January 22, in Chase and Bennett hall, when the Itchy Mountain Warblers give their male quartet and instrumental novelty program.

Two High School Teams Lose

Schenvus High school girls' team and the boys' soccer team met defeat at the hands of the Agricultural school at Cobleskill Saturday night. Each team now has one game to its credit, as both Schenvus teams won when Cobleskill played here some time ago.

Grange Officers to Be Installed

The officers of the Schenvus Valley Grange will be installed into office Tuesday evening at the meeting held in Odd Fellows hall. J. Clark Nesbitt will be the installing officer. During the lecture's hour, a musical program will be rendered. Refreshments will be served. A full attendance is desired. Each member is requested to bring individual dishes.

A Fish Supper at Westford

A fish supper is to be served at Westford Friday evening in the Methodist parish house. A nominal charge will be made for the meal for which is promised an appetizing menu. The management and service will be in the hands of the gentlemen of Westford, who assure all patrons that the supper is "come one, come all, eat and be merry." A cordial invitation is extended to the public. The supper is scheduled to begin at 6 o'clock and continue until all are served.

State Manager to Address K. O. T. M.

A special meeting of the K. O. T. M. is called for Wednesday evening at Odd Fellows hall. D. J. Coakley, state manager of Haddonfield, N. J., will address the assembly. Tentative program, and District Manager Raymond Tucker of Oneonta will be present and address the lodge.

Norman Fink Seriously Ill

Norman Fink of Springfield Center who is suffering with influenza, pneumonia and a high fever, is reported seriously ill. Mr. Fink has a fine market garden at Springfield Center and also raises bees. Last summer he was badly stung by the bees and the swelling of his head and face has been entirely reduced. Whether the present illness is in any way due to this condition could not be learned.

Operation on Levi Boardman

Levi Boardman, son of Mr. and Mrs. E. E. Boardman, was operated on at the Lakeside hospital in Cleveland last Tuesday for the removal of tonsils. Latest reports are to the effect that he is making a satisfactory recovery.

Schenvus People Improved

Mrs. Ray Banker was out walking

Thursday afternoon for the first time in two weeks. Mrs. Banker is suffering with rheumatism.

Miss Helena Brackhamer took advantage of the beautiful sunshine and balmy weather Thursday forenoon and walked from her home up to the post office. Miss Brackhamer is to be congratulated on her escape from what might have been a serious accident while counting about two weeks ago.

Falls on Ice, Injuring Hip

Mrs. Charles Tice, who has been doing night duty on a pneumonia case in Oneonta, had the misfortune to fall on the ice Tuesday evening and is confined to the home of her sister, Mrs. Charles Bevan, suffering with a bruised hip.

Leaves Reservoir Farm

Albert Stevens, now occupying the Wickham place on South Hill, has leased the reservoir farm on Smoky avenue and will take possession on March 1. Will Stillwell of South Hill will move from the Palmer farm to the Wickham place.

To Cut 500 Cords of Wood

Charles Bellow, F. E. Lewis and Jack Hughes are harvesting wood from the Emerson Cornell farm on Smoky avenue. The work is all being done by machinery and 500 cords of stove wood are to be cut.

Anxiety as to Ice Harvest

Considerable anxiety is expressed by the ice harvesters due to the present spell of mild weather. Ice harvesters were six, eight and 11 inches thick and indications were favorable for an early harvest. The recent rains and mild weather will prove somewhat of a handicap. It is feared.

Entertained at Bridge

Mrs. Benjamin Wells entertained 18th birthday on Wednesday at her home on Upper Main street and served dainty refreshments to her guests after cards.

Board of Education Meeting

The regular monthly meeting of the Board of Education will be held at the office of the president, R. V. Tillapaugh, Monday evening at 7:30.

Celebrates Birthday

Mrs. Mary Wilson celebrated her 75th birthday on Wednesday at the home of her son, Claude M. Wilson, where a dinner party was given in her honor.

Personal

Mr. and Mrs. John W. Chase, son, Richard, and daughter, Ruth, spent Sunday in Cherry Valley visiting Mrs. Chase's brother, G. F. Boyce. — Miss Dorothea Boardman spent Wednesday in Oneonta visiting friends. — Mrs. Winger Bill and daughter were calling in Oneonta Friday. — Mrs. Able Burdick of Oneonta was in town on Wednesday visiting her mother, Mrs. Alice Bennett.

UNADILLA

Unadilla, Jan. 14.—Miss L. Antilla Halsey returned to her home in Unadilla.

After Saturday evening for a few weeks. Mrs. Halsey has been at the home of her brother, Frederick Halsey, for some time. Mr. Halsey is taking a trip to South America for about ten weeks. — Miss Barbara Chase, a student in Cornell university, was at the home of her parents, Mr. and Mrs. M. S. Chase, on Sunday. — Mr. and Mrs. Walter Goldsmith of Oneonta were weekend visitors of Mr. and Mrs. Frank Tyron. — The auction of household goods of the late Helen Gray Hunt, which was held Saturday afternoon, will be continued Tuesday at 1 p. m., as all articles were not sold.

FUNERAL OF MISS BARRY

Services held for Schuyler Lake resident who died on Friday.

Schuyler Lake, Jan. 14.—Miss Julia Ann Barry passed away Friday night at the home of Jacob Gorman, where she had been working for several weeks, of pneumonia, after only a few days illness. Her age was about 30 years. She was a daughter of Daniel and Maria Brown Barry, and was born on the old Barry homestead, a few miles from this village in the town of Burlington.

She leaves to mourn her death two sisters, Mrs. Mary VanCourt of Burlington and Mrs. Caroline Griffin. Mrs. Paul Light, Mrs. L. F. Perkins of this village, Mrs. Frank Montgomery of Burlington, Mrs. D. C. Williams of Laurens and Mrs. Emma VanCourt of Oneonta are nieces of the deceased. The funeral was held in Pleasant Valley. Rev. Frank Benfield officiated.

Fire Company Elect Officers

At the annual meeting of the Schuyler Lake Fire Co. No. 1, held at the club rooms one night recently, the following officers were elected: Chief, R. L. Holbrook; assistant, F. C. Chiles; secretary, George Flansburg; treasurer, M. J. Clark.

Becomes Farm Bureau Agent

The many friends here will be pleased to learn that on January 15 Norman Eason leaves Ponda, where he has been assistant manager of the Monroe county Farm Bureau, and goes to Owego, where he will become head of the Tioga county Farm Bureau at a substantial increase in salary.

Fireproof Safe Purchased

State officials were recently in town and ordered the Town Board to purchase a fireproof safe to keep the town records in. The new safe arrived in town Saturday and is installed in the bank building, where the town clerk's office is located.

Town Officers Appointed

At a meeting of the town board held at the bank building, Tuesday January 9, the following town officers were appointed to fill vacancies: C. V. Coe, overseer of poor; justice of peace, John W. Allen; constables, Wm. Kilbridge and Fletcher Brown.

Sunday School Elects Officers

The Baptist and Methodist Union Sunday school have elected the following officers for the coming year: Superintendent Mrs. M. J. Clarke; assistant superintendent, Miss Mabel Beadle; treasurer Miss Nina Knight; recording secretary Waldo Clarke; corresponding secretary, Miss D. Dick.

Minor Mentions

Mr. and Mrs. J. W. Clouton of Cooperstown, spent Sunday with her father, S. D. Edmonds. — Mrs. Ester Lechevet, who is working at S. D. Edmonds, spent the weekend with her son, Claude Lechevet, at Ilion. — Quite a few from here attended the Eastern Star dance at Hartwick, Friday evening. — Mrs. R. L. Holbrook, Mrs. George Rider, Mrs. George Flansburg and Miss Margaret Bliss were business callers at Utica, Saturday. — Mr. and Mrs. Charles Andrews and Mrs. Helen Light of Richfield spent Sunday with Mr. and Mrs. Everett Hotelling. — Mrs. Edna Coyne of Utica is spending a few days with her sister, Mrs. Charles.

Hartwick. — Charles Hotelling attended the funeral of Arthur Wilson at Hartwick one day last week. — Earl Rice is improving and was able to be moved down stairs Sunday, but is still confined to the bed. — Mr. and Mrs. Gilbert Knapp and son, Kenneth, of Springfield, spent Sunday with his sister, Mrs. Arthur Meyer. — Allen Washburn spent Sunday and Monday with Herman Pratt at Richfield Springs. — The condition of Richard Jones remains about the same. — George Miller, who suffered a stroke some time ago, is gaining in strength, but it is feared that his mind is affected.

Hartwick Bank Elects Officers

Hartwick, Jan. 14.—At the annual meeting of the stockholders of the Hartwick National Bank of Hartwick, held January 8, the following directors were elected: O. A. Burch, E. L. Sergeant, Dr. G. E. Schoolecraft, E. O. Rogers, A. M. Burch, H. D. Bilderback, J. G. Morehouse, and O. W. Murdock.

At subsequent directors meeting the following officers were elected: O. A. Burch, president; E. L. Sergeant, vice-president; O. W. Murdock, cashier; and B. L. Fuller, teller.

Two West Oneonta Meetings

West Oneonta, Jan. 14.—The Home bureau of West Oneonta will meet on Wednesday afternoon at 3 o'clock at the home of Mrs. Frank Tabor. All women interested in Home bureau work for the coming year are cordially invited to be present.

The Philathea class of the Century Baptist church will meet on Wednesday evening at the home of Mrs. Stella Jenks.

MENA

Lena, Jan. 14.—Mr. and Mrs. D. C. Talbot, Mr. and Mrs. J. R. Thompson, Mrs. Chester Harrington, Mrs. Glen Latham attended the Massena meeting at Rev. Louch's Wednesday.

The next meeting will be held at D. C. Talbot's in February. — Mr. and Mrs. Ralph Pierce of Mendon visited Miss Ann Spencer Monday. Her condition remains about the same. — Mr. and Mrs. John Harrington of Welcome spent Wednesday and Thursday at Edwin Card's. — The Economic club meeting was largely attended at the home of Mrs. Stella Jenks.

Delaware County News

BUYS HENRY AMES HOUSE

J. Dewitt Church will leave present residence which is on Village Park Property.

Stamford, Jan. 14.—The Henry Ames house and lot situated on Church street has been sold to J. Dewitt Church, with immediate possession. Mr. Church will vacate the dwelling he now occupies, which is owned by Stamford village and located on Main street in Stamford village park. The understanding is that plans are being made to erect the Churchill library building for which part of the park property was donated by the Ames family.

S. E. Churchill will build a new library building on the site of the old library building. The \$25,000 is on deposit in a Stamford bank to be used in erecting the library and if not used for the purpose within ten years the money reverts to the Churchill heirs.

If the Opera house is sold by the village, some taxpayers are in favor of the village contributing the money received from the sale toward the building fund of the proposed new library building, while others think the money should be used to help defray the expense of the new sewer plant instead of the village issuing the amount of \$250,000 sewer bonds. Before any definite action is taken regarding the library building the taxpayers of the school district will have a vote on the matter as the Churchill fund is a gift to the Stamford school district.

Election of Bank Officers

At the meeting of the directors of the National bank of Stamford, held Saturday, January 12, the present officers were re-elected as follows: President, Charles L. Adams; vice president, Dr. E. W. Gallup; cashier, S. C. Robinson; assistant cashiers, A. S. Chambers, and N. W. Baird. The closing of the year 1933 shows the continued progress made by this institution as a comparison of their government reports of December, 1932 and 1933 shows an increase of over \$250,000 in deposits and over \$107,000 in resources.

Death of Miss Hattie Brown

Miss Hattie Brown died at the home of her niece, Mrs. Mildred Cooney in Pennsylvania Wednesday, January 9, and the body was brought to Stamford Saturday for interment. The funeral was held from the Presbyterian church, of which she was a member, Sunday afternoon. Interment in Stamford cemetery. For many years Miss Brown resided on Academy street in this village.

Appointed Constables

Jay L. Wood and Charles Grant have been appointed constables by the Stamford town board. No decision has been made in regard to the contest over the election of commissioner of highways. It is reported that the town board is to settle the question.

Source Hall Opened

A dance hall has been opened in the former Marabow rooms, Hoarland building, Railroad avenue, and grand crowds are attending. Music is furnished by Gregory's orchestra.

Drifter Knew of Intoxication

An enjoyable supper was served by the ladies of the Baptist church Friday night. Receipts about \$25. — During the recent cold spell the water pipes froze and burst in the parsonage of the Baptist church, doing much damage to plumbing, furnishings and decorations. — D. C. Hotelling, one of Stamford's prominent business men, is seriously ill with typhoid fever at a hospital in Alfred, Me. — Mr. and Mrs. Hotelling and — Lee and wife went to Florida to spend the winter.

LAST OF STAMFORD FAMILY

Miss Henry H. Maynard died at age of 80 — Stamford Wednesday.

Stamford, Jan. 11. — Miss Henry H. Maynard, the last surviving member of the family of Horton and Henry Maynard, died at her home in Stamford.

RUN-DOWN WEAL, NERVOUS

Benefited by First Bottle of Lydia E. Pinkham's Vegetable Compound

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for all these troubles. For sale by druggists everywhere.

John Harrington last Saturday evening, and all did ample justice to the oyster supper. — There was a large crowd of young people at the surprise party for Miss Edna Bloomer on Saturday night. They all reported a good time. — Mrs. Charles K. Harrington is at Hartwick helping care for her mother, Mrs. John T. Curry, who has suffered another shock. — Miss Delilah Joy is waiting for Andrew Salisbury, hoping care for Miss Spencer. — Jesse spent Sunday with Edwin Card.

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Insulators on Warship Like Springs of Beads

Every rope and stay of the "Colorado," Uncle Sam's new electrically driven warship, is thoroughly insulated, the knobs

Automatic Gear to Replace Clutch in Autos

In the invention in England of an automatic automobile gear, which dispenses with the clutch, gear box, and the usual type of rear-drive axle, certain engineers are the beginning of a new era in the industry that will be marked by many revolutionary changes in the vehicle's mechanism. The device is said to instantly adjust itself to loads and grades without attention from the driver.

Please Receiver Held to Ear by Bracket; Feet Hands

Free use of both hands is permitted a person using a telephone equipped with a holding steel arm recently invented, that holds the receiver to the ear. Clamped to the stand, it is easily adjusted to any position desired. With a single movement of the arm, the receiver hook is raised to signal the operator. To dis-

Gain Half Century Hence to be "Built in Air"

Having the advantage of being designed with strings of large beads. Because of the great amount of current generated about the wind and also because the air is so necessary for its guidance, no electrical leakage can be permitted anywhere. According to navy officials, the craft is one of the best insulated ships afloat.

Cleaning an Oil-Sealed Ball

To clean an oil-sealed ball, oil the ball heavily in a box or tub and fill the box with oil, being sure to get the oil between the surfaces for the oil length. Let it remain thus overnight, and the oil will absorb the dirt and leave the ball clean.

A Ski Toboggan

The exhilarating sport of sliding downhill on the snow crust has much to commend it. It also has its dangers, as the crust softens toward spring, and a heavy sled is liable to break through, catapulting its passengers headlong into the frozen snow, which breaks up and presents jagged cutting edges capable of in-

flating considerable injury. A sled that is so built up as to presently eliminate this danger is shown in the drawing.

It is made from a pair of old skis, securely fastened together by means of three crosspieces and two diagonal braces, as shown in the upper details. The top board and front rail are attached to this framework by means of wood screws, and a hole is drilled through the end of each ski to take a 1/2-in. rope. This sled will slide just as easily and just as far as any other sled, and will not break up on the soft crust, or turn over, due to the weight of the rope. It is also light in weight and can be easily managed by children.

Fixing considerable injury. A sled that is so built up as to presently eliminate this danger is shown in the drawing.

STORY IN THE MAKING

Latest News for All.
President Coolidge is right in opposing the Democratic substitute for the Mellon bill. The evidence is conclusive that the Mellon plan would not result in sufficient taxes for the government. Furthermore, if the Mellon plan were adopted, the government would be paying out \$2,000,000,000 more than it would be receiving. The Mellon plan would be a way to pay most of their extra burden back to the \$5,000,000,000. They could do this because the \$2,000,000,000 are, for the most part, engaged in production and therefore in a position to add their increased taxes to the price of the product. (New York Herald.)

Had Sportsmanship.

Protest against the killing of game by the use of airplane or motor vehicle should interest every fair-minded sportsman in the state. The airplane has not yet been employed in a large way, but the motor vehicle has done service in many instances in a way to discredit good sportsmanship. (Wilkes-Barre Record.)

Police Go in for Literature.

But one defect is to be discovered in Commissioner Knight's prize offer for the stories of policemen touching on their own exploits. The manuscripts are to be judged officially, not by laymen, and the identities of the authors will be known to officials. Hence all accounts of experiences while on the force are likely to stick to the innocuous and flattering as distinct from the human and illuminating. (New York World.)

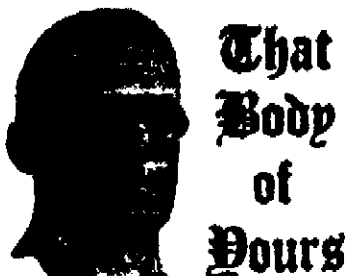

Tall Buildings.

New York skyscrapers are the safest places in all the world during thunderstorms, says a man who knows a good deal about lightning. Tall buildings are electrostatic shields, he explains, because the greatest part of their construction absorbs the electricity. (Nation's Business.)

Ignorance of the Law.

A judge of a recorder's court in North Carolina writes to the editor of the Raleigh News and Observer that he is continually called upon to try and punish people for violating laws that they have never heard of, and suggests that schools ought to spend more time in the instruction of young people in this regard.

It may be that the reform which he suggests is needed, but it is out of the question to prepare school children in advance for conforming to the law when they become adults. Laws are constantly changing and acts innocent one year may become crimes the year after. The important thing is to cultivate an alert mind and the habit of keeping up with the news of the world. The laws which school children have to take into account are few and simple and most of them are perfectly familiar. When they go out into the world they will come into contact with such parts of the law as relate to their occupations as well as to their personal life, and the best the schools can do is to give them the mental training needed to learn their duties as law-abiding citizens and the moral training which will lead to keep them from violating or evading the law. (Springfield Republican.)

That Body of Yours

By James W. Barton, M.D.

THE THREE AGES.

We read in our early days about the seven ages of man.

I can't just remember the definite periods off hand, but in thinking of that body of yours I can think of three definite periods.

The first is the age of 15 in a boy, or 13 in a girl, the age of puberty. The man and woman has emerged from childhood.

The second is the mature age of 25 to 37, when both men and women have reached their full maturity. They may grow stronger or weaker, but insofar as natural growth and development are concerned nature has completed her work.

And the third period is that of middle age—about 40.

I have often thought how these three periods are fraught with dangers, and also with privileges.

That the boy and girl at puberty should be taught by parents about the transformation that has taken place in their bodies and its significance.

The man and woman at 25 and 37 should realize that they have reached the peak of full maturity. If at this time they will take the ordinary thought as to food and exercise, they would avoid the embarrassing fat, and protruding abdomen that now comes.

You see nature is through building you up, and so your food now is not required for that purpose. If you continue to eat it, then it should be used up by work or exercise, or otherwise you will accumulate weight. And so from 25 to 37 you are at your best—most as a physical vigor is concerned.

And now the third stage—40 years old.

Nature has maintained you well. You have been capable as to diet and exercise. You have perhaps escaped any serious illness.

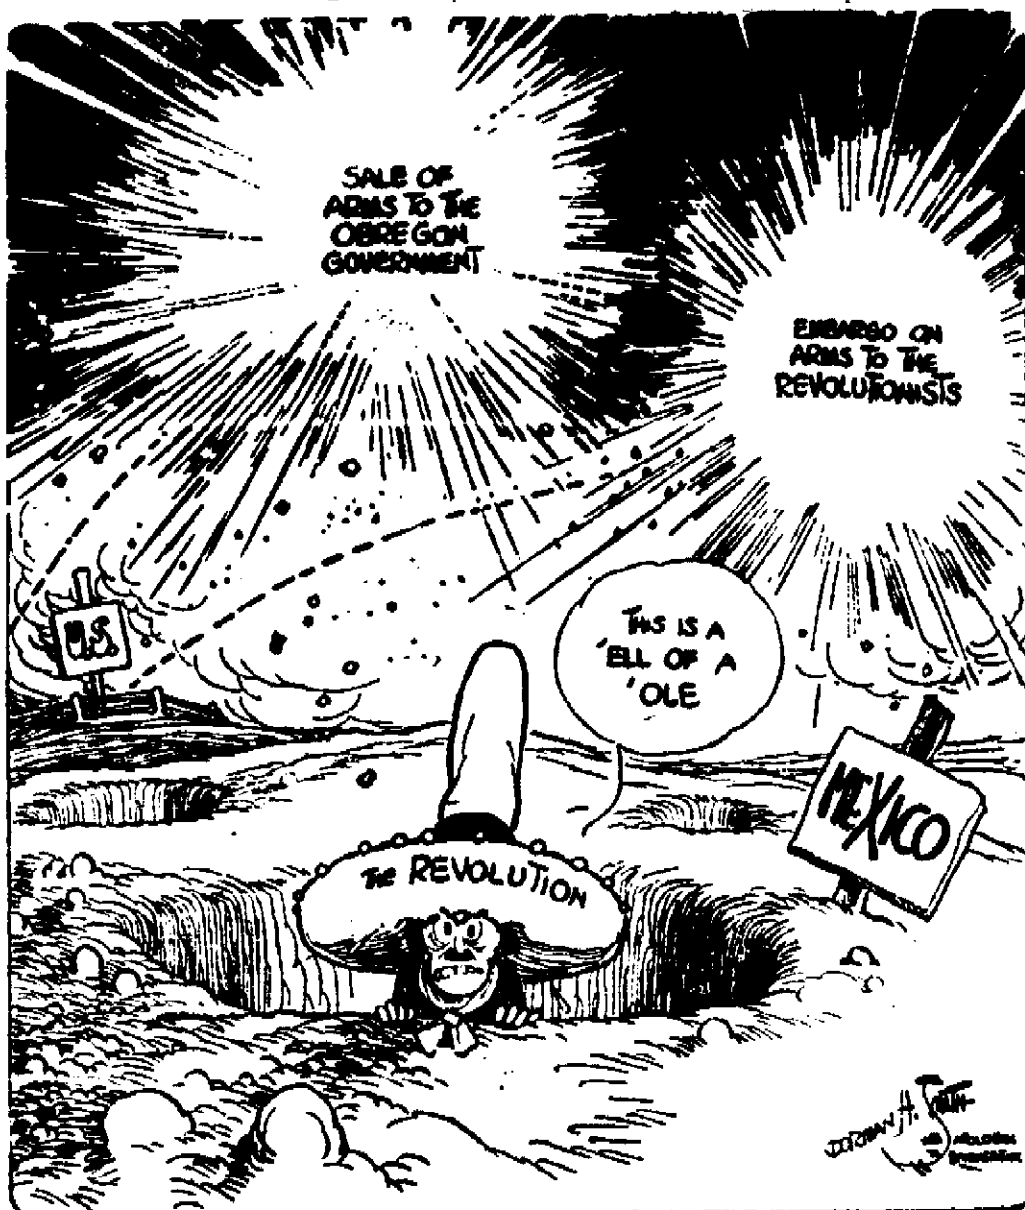

What should be your program? Really it changes in our time. You will no longer be the care of your mother by diet and exercise.

But your exercise now should not be competitive. It should be plenty of walking, or golf, and the slower, more moderate forms of exercise because you feel strong don't go in for any endurance tests. Because you are still strong, don't try to show up some of the younger fellows half your age. Because you are strong, don't hesitate to do what you should do.

At 40 your whole thought should be to preserve what you have acquired between your second and third periods. That health and that vigor that you have acquired with you. If you don't have exercise a body, you, particularly along the lines of diet, exercise, you should be good for another 20 years or 30, with ordinary care.

NO "BETTER" 'OLE' IN SIGHT

TWENTY AND THIRTY YEARS AGO

Days of Old Recalled by Items Clipped from The Star Files.

Jan. 13, 1901.

The Philanthropic society of the Normal school has elected the following officers: President, Fred Wakely; vice-president, Floyd Van Epps; recording secretary, Carl Gregory; financial secretary, Howard Marble; treasurer, Guy McLaury, teller, Fred Jones.

Among the Oneonta automobile enthusiasts now attending the automobile show in New York is George B. Fair, and word comes that he has purchased, through the Sterling Motor Car company of Binghamton, a four cylinder, twenty-four horsepower Pope-Toledo car. These cars are now attracting much attention and the concern is looking orders rapidly.

The U. I. A. to the B. of L. E. installed the following officers last evening: Mrs. A. D. Dimmick acting as

William Emory, vice-president, Mrs. Lena Johnson, secretary, Mrs. W. E. Patton, treasurer, Mrs. E. J. Albert, chaplain, Mrs. Truman Irish, insurance secretary, Mrs. H. A. Gault, marshal, Mrs. E. Owen and Mrs. W. B. Abbenpugh, guide, Mrs. A. D. Dimmick, sentinel, Mrs. George Collins.

Jan. 13, 1901.

Milton Gurney has purchased the Randall Richards property at the corner of Ford avenue and Walnut street. This property adjoins that of his son, E. J. Gurney, on Walnut street.

Oneonta council, Catholic Benevolent league, has installed the following officers: President, Michael Hickey; vice-president, Charles Hickey; secretary, Thomas Mooney; treasurer, Oliver F. Carlson; collector, Joseph Foley; treasurer, James Whalen; marshal, Michael Luddy; guard, Thomas Honan; trustees, John Kalligan, Patrick Stapleton, William Hickey, representative to state council, William Hickey; alternate to state council, Charles Morrison.

At the Republican town caucus held last evening William Morris was elected chairman, M. L. Ford, secretary, and W. E. Yager and Fred L. Larrabee, tellers. The nominations were as follows: Supervisor, Henry Bull; town clerk, A. D. Hitchcock; justice of the peace, David J. Yager; overseer of the poor, G. Theodore Yager; commissioner of highways, Seymour Kilburn; as

THE GUIDE POST—BY HENRY VA. DYKE

THE SECRET OF TRUE LIBERTY

The law of the spirit of life in Christ Jesus made us free from the law of sin and of death.—Rom. 8:2.

That which is glorious and self-existent is frequently false and generally superficial.

It is only by striking down into the hidden depths of our nature that we come to these paradoxes in which the essence of truth resides.

"He that hateth his life shall lose it."

That is a contradiction in terms, but it is a reality in experience.

"He that is greatest among you shall be your servant."

That is a falsehood to the world, but it is a truth to the soul.

"The only life who knows himself to be a fool."

To a little learning, that seems advanced, but to a real wisdom philosophy it is the voice of wisdom.

What is liberty? It is the recognition of voluntary allegiance to the highest law.

And what is the highest law? It is the law of gratitude and love.

Who, then, is free? He who sees and feels the obligation which binds him to serve the highest and the best.

The noblest, richest, fullest, sweetest life is that which has the deepest and strongest sense of individualism resting upon it always, and impelling it forward along the line of duty, which is also the line of joy.

So, then, true liberty is the highest kind of bondage.

Mr. and Mrs. Charles Bailey of Morris have been visiting Mr. and Mrs. H. F. Baker, 379 Chestnut street.

DEATH FROM ERTSPELASE

Glenn Sitzer, Troyer Employee Packer, Away Monday Morning.

Hartwick, Jan. 14. — Glenn Sitzer, employed as a binder on the Southern New York railway, died quite suddenly at his home here Monday morning at 4 o'clock from erysipelas, the disease being apparently of an acute type, he having consulted a physician for the first on Saturday last.

The funeral services, which will be private, will be held from the home on Wednesday at 2 p. m. with interment in the Hartwick cemetery.

The deceased is survived by his mother, Mrs. Leona Sitzer, one sister, Mrs. O. C. Bort of Binghamton and one brother, Earl P. Sitzer of this place. Mr. Sitzer was born August 28, 1912, and had always resided here. He was a young man with many friends and was universally respected.

Just closed, a dandy nine-room house with every modern improvement, good location on paved street. Good reason for selling. Priced for quick sale. Call 2-1221.

K. Howland, 224 Main street, apt. 25.

Mrs. Emma E. Lee of Binghamton arrived in the city yesterday for a visit at the home of her son, H. W. Lee, while on her way to Cobleskill, where she is spending the winter.

Mrs. Emma Cole, who had been stopping for the past month with her sister, Mrs. Anna Evans, of 3 Gilbert street, left yesterday for the home of her daughter, Mrs. Walter Davis of Deposit.

Miss Ella Goodrich, who had been spending the week-end with her parents in Walton, was in Oneonta yesterday enroute to Stamford, where she is a stenographer in the First National bank.

Mr. and Mrs. William A. Kelley of 3 Third street, who for the past four weeks has been guests of relatives in Haldwin, L. I., and Philadelphia and Carbondale, Pa., arrived home Sunday evening.

Mr. and Mrs. James McNeley and daughter, Miss Margaret McNeley, of Allendale, N. J., passed through Oneonta yesterday on their way home after attending the funeral services of Peter McNeley at Cooperstown.

Mrs. L. C. Gurney left yesterday morning for a sojourn with friends in New York city. Mr. Gurney joins her later in the week and they will visit their son, Captain Augustus M. Gurney, at West Point before returning home.

FUNERALS

Mrs. Frances Luther Peck.

Funeral services for Mrs. Frances Luther Peck were held from the home of her son, C. L. Peck, 378 Chestnut street, where she died on Thursday last, yesterday morning at 1:45 o'clock and from St. Mary's Roman Catholic church at 9:30 o'clock, where a requiem high mass was sung by Father W. D. Noonan.

The bearers at the service were George Stapleton, P. F. Gallagher, D. W. Orcutt, C. E. Choate, Jay Cleleski, and John Brophy. Among the beautiful floral tributes were pieces from the following organizations: Knights of Columbus, Musicians union, J. O. & G. N. Rowe and employees, Veteran Firemen and Neighbors. Interment was made in the Peck plot in Mt. Calvary cemetery.

Among those from out of the city in attendance at the service were Dr. and Mrs. Frank Wolford and John E. Luther of Hartwick Seminary. Mr. and Mrs. Earl Luther of Milford, Mr. and Mrs. James B. Kiley of Cooperstown, and Mr. and Mrs. Arthur Peck of Laurens.

DEATHS

Mrs. Isabella M. Liscomb.

New York, Jan. 14. — Mrs. Isabella M. Liscomb, widow of the late George (G.) Liscomb, died Saturday, January 12, at her home in New York city. She was born in Rosendale, the daughter of old residents of Ulster county, Walter J. and Amanda Statuta Budington, her father being superintendent of the Lawrenceville cement company for many years.

She is survived by two daughters, Mrs. Frank O. Kilpatrick of New York and Mrs. Robert W. Francis of New York and Los Angeles, and one son, Merrill G. Liscomb of Kingston, also by one sister, Mrs. F. Kirby McLaughlin of this city.

The funeral will be held Tuesday morning at 10:30 o'clock. Relatives and friends are invited.

Father Formerly of Treadwell.

Marion Doris Allen, daughter of Mr. and Mrs. Howard Allen of Melrose, Pa., died Sunday morning after about three years' illness of valvular heart trouble. The funeral will be held in Melrose today.

The deceased was thirteen years of age. Her father was formerly a resident of Treadwell and has a brother, James C. Allen of the Plains, and a sister, Mrs. L. O. Epps of 2 Division street, this city.

Mrs. Pierce Awarded Divorce.

Mrs. Ethel M. Pierce of Albany, formerly of this city, has been awarded a divorce from her husband, R. T. Pierce, a former employee of the D. & H. shops here and for a few weeks during the process of the shopcraft strike, master mechanic here. It is said that Pierce ran away with another woman in March last and has not returned. Mrs. Pierce was awarded the custody of their daughter. The couple were married here in 1943.

To Spread Winter Snowing in South.

Mr. and Mrs. John L. Bowdoin and Mr. and Mrs. D. A. Diefendorf leave this morning by rail for Jacksonville, Fla. From that city they will start a motor trip through the south in a machine they will purchase there, and they expect to spend the winter in the southern states, gradually spreading their way to the north in the spring.

Mr. and Mrs. A. P. Donahue to South.

Mr. and Mrs. A. P. Donahue, formerly of this city but now of Albany, left Monday morning to spend the winter at St. Petersburg, Florida. Their many friends will regret that they were unable to leave so soon as at first planned because Mr. Donahue has been under the care of Dr. Lewis Dushaw.

For Rent—Two large furnished rooms, electric lights, one of bath. Inquire at the office of May & Howard, 214 Main street. advt 47

Mothers! Rub Away Children's Colds

Let them breathe in healing vapors all night

THE MOTHER'S PROBLEM—
Wise mothers know that daily outdoor exercise in childhood lays the foundation for strong bodies in later life.

Daily means Winter as well as Summer.

But with outdoor exposure some colds are bound to come.

And we know now that colds are not just "simple" colds.

They must not be neglected. Much of the earache, deafness and ill health of adults is now laid by physicians to the neglected colds of childhood.

On the other hand, constant internal dosing must not be thought of. This is the mother's problem these cold Winter days.

Little Stomachs Rebel Against Dosing

Amused mothers are too apt to dose their children continually.

Often this upsets the delicate little stomach. An upset stomach means a poor appetite. So the child doesn't eat enough to keep up its strength.

This in turn lowers the bodily resistance, thus inviting fresh colds and other diseases.

THE PROBLEM SOLVED—Vicks VapoRub—the external, vaporizing treatment—has solved this problem for literally millions of mothers.

They let the kiddies romp outdoors but at the first sign of "sniffles" they apply Vicks over the throat and chest at night.

It is externally applied and so can be used frequently without upsetting the digestion.

The ingredients, released by the body heat, are inhaled with each breath, stimulating the air passages to throw off the cold germs. At the same time, Vicks increases the circulation of the blood throughout the chest region, thus helping to prevent any congestion developing.

This use of Vicks will prevent many colds and save much precious strength and vitality.

EXTERNALLY applied, Vicks can be used as freely and as often as desired, even on the youngest child.

HOW VICKS SHOULD BE USED

For Head Colds, Aches, Coughs, Hay Fever—Vicks should be melted in a spoon and the vapors inhaled, or a little can be applied up the nostrils and sniffed up the head.

For Spasmodic Croup, Children's Colds—Rub Vicks over the throat and chest until the difficult breathing is relieved, then spread on thickly and cover with a hot flannel cloth. One application at bedtime usually prevents a night attack of croup.

For Deep Cough Colds, Sore Throat, Tonsillitis, Bronchitis, Coughs—Rub Vicks thickly over the throat and chest. In severe cases first rub the skin to open the pores (see directions). Then spread on thickly and cover with one or two thick pieces of hot flannel cloths. If the cough is annoying, a small piece the size of a pea can be swallowed every few hours.

WILL RECALL DR. KILMER

Binghamton Physician and Noted Cancer Specialist Dies Monday.

Many in Oneonta and vicinity will recall Dr. S. Andral Kilmer, and will learn with regret of his death which occurred on Monday morning. The cause of death was cerebral hemorrhage, and he was ill only a little over two days.

Dr. Kilmer was born 82 years ago in Cobleskill, and was educated in the Schenck academy and Richmondville seminary. He was a graduate of the Bennett Medical college and after graduating practiced in New York city and Philadelphia. He had for many years been a resident of Binghamton, where for several years he was associated with his brother the late Jonas M. Kilmer, in the proprietary medicine business. Later he retired from this business and was from 1932 largely engaged in the treatment of cancer, at first at Santara Springs, later in Binghamton, and just before his death in the new sanitarium at Santara Springs, which he opened only last Thursday. It is understood that his work will be continued by others to whom he had imparted his methods.

Dr. Kilmer is survived by his wife, Mrs. Katherine Randolph Kilmer, and a son and daughter, both of Binghamton. He was well known in Oneonta and vicinity, coming for years at stated periods, and many will no doubt remember his ministrations. His last visit to this city was made only a few months ago.

Birthday of Miss Jennie Kelley.

About fifteen friends of Miss Jennie Kelley gathered at her home on Saturday evening to help her celebrate her sixteenth birthday. The evening was pleasantly passed, with games and music, and at the close delicious refreshments were served.

Card of Thanks.

We wish to thank our kind friends and neighbors for the use of cars and for the many beautiful flowers sent for the funeral of our beloved mother, Mr. and Mrs. C. L. Peck and relatives.

At the First Symptom

A cough, a cold or any other early sign of a cold is Nature's danger signal. It tells you to beware of trouble ahead. It warns you of the danger of pneumonia, and the danger of the flu. It tells you to get relief at once.

Prepared by the Williamson-Cough, Croup and Sore Throat Company, Binghamton, New York, and for sale at every drug and grocery store.

GUARANTEED WILLIAMSON'S Cough, Croup and Sore Throat Syrup is the only remedy that gives relief in 15 minutes.

Ford
THE UNIVERSAL CAR

Looking Ahead

LAST Spring a total of 350,000 people were disappointed in not being able to obtain deliveries of Ford Cars and Trucks, as orders were placed faster than cars could be produced.

The demand for Ford Cars and Trucks this Spring will, according to all indications, be far greater than last Spring.

Winter buying has been increasing at a greater rate than ever before.

Actual retail deliveries the past 60 days totaled 308,170 Ford Cars and Trucks, an increase of 1,961 a day over a year ago.

Over 200,000 people have already ordered Ford products on our purchase plan, the majority of whom will take delivery in the Spring.

The above facts are given with the suggestion that you list your order promptly with a Ford dealer if you contemplate the purchase of a Ford Car or Truck for use this Spring or Summer and wish to avoid delay in delivery.

Ford Motor Company
Detroit, Michigan

You need not pay cash for your car. You can arrange to make a small deposit down, balance over 48 months in easy payments. Or, you can buy on the Ford Weekly Payment Plan. This plan gives you the greatest value for your money and a time to be determined by yourself.

Surprised Gotham Society

Millie Rogers, "40,000,000 heiress," gave New York society a shock the other day when she slipped down to the City Hall and married Count Ludwig Salm-von Hoogstraeten, former Austrian cavalryman. Miss Rogers is a granddaughter of the late H. H. Rogers, former Standard Oil magnate.

JAPAN TO SPEND
HALF BILLION

Reconstruction Program Calls for
Expenditure of Large Sum
in Five Years.

Washington.—Conditions in Japan are gradually becoming settled. Military law has been discontinued and sufficient temporary structures have been provided to care for all who were without shelter, says a cable received by the Far Eastern division of the Department of Commerce from its Tokyo representative. It is unofficially estimated that reconstruction expenditures during the first five years will reach only \$325,000,000, of which amount \$275,000,000 will be spent in Tokyo and \$150,000,000 in Yokohama, indicating that either the damage caused by the earthquake was not as great as it appeared, or that the program of reconstruction will be carried out over a long period of years.

To Postpone All Loans.
It is stated in Tokyo that the 1924-1925 budget estimates will be reduced to about 1,270,000,000 yen, compared with the current budget estimate of 1,340,000,000. This decrease of 70,000,000 from the current budget figures will go a long way toward offsetting an estimated decrease in revenue during the coming year of about 193,000,000 yen. The minister of finance announces that all schemes, including loans planned prior to the earthquake, will be postponed during the present financial year, and as a first step toward increasing revenues the government contemplates raising domestic telegraph and postal rates. Bank clearings of the five principal districts of Japan during October reached 4,300,000,000 yen—almost double those of the preceding month.

France to Repay War Loan.
The money market continues easy with the exchange rate on an even keel, though smaller firms are still having difficulty in negotiating credits due to lack of sufficient security. Over-subscription of the 55,000,000 yen internal refunding loan and a large increase in postal savings indicate general financial strength, which is increased by the amalgamation of 160 private banks under the leadership of the Yasuda bank and the announced intention of France to repay a war loan of 50,000,000 yen, made in Japan, which will probably be applied to purchase of reconstruction materials in Europe and will tend to ease the drain on the gold reserve held abroad.

Sabots of Ancient Days

Cast Aside by Peasants
Paris.—The custom of sabot wearing, popular for centuries among the peasantry of France and Belgium, gradually is dying out. Since time immemorial the peasants of a small community of Mormal, has been an active center of sabot making.

But the war, transforming everything, had its effect on this ancient industry. It is decreasing because the saboteurs, returning after the war, were filled with new ideas and tried to modernize the methods of fabrication. Workmen's huts on the edge of the forest grew fewer and fewer. The saboteurs no longer chatted in the long winter evenings as they worked by candle light. And with the disappearance of the picturesque custom of sabot wearing is gradually disappearing also.

Sabots are made now in modern establishments that can turn out a large number a day, but the demand has fallen off. Hand work is rare. Fewer sabots are worn—something is lacking.

Historic English Hall

Will Be Wrecked Soon

London.—Ribbon hall, on the banks of the River, at Camerton, Cumberland, is to be pulled down shortly. The famous Hugo Jones was the architect of the hall, which was built in the Renaissance style in the reign of Charles II. It has been used as a farmhouse for a century. Lord Londale, the owner, has reluctantly come to the conclusion that it is structurally unsafe and cannot be repaired. Ribbon hall contains some choice oak and chestnut paneling. The Ribbon township after the conquest was part of the possessions of Waldeof, son of Gilmin, who settled the same on a young son, Thomas, who took the name of Ribbon. These afterwards passed to Thomas Langhugh, who came from Beverley, in Yorkshire, during the civil wars and built the house.

Ignorance to Blame.
Many a bad debt owes its birth more to ignorance and indifference than to willful intent to defraud. To oppose neglect vaccination and clean habits is to invite ill health and financial disaster.

INDIGESTION
JACQUES
CAPSULES

Peas of indigestion quickly give way to the pure, liquid medicine Jacques' Capsules. One or two with a glass of water give prompt relief. Ghostly Noises Revealed

Lost Carrier Pigeon

New York.—A lost carrier pigeon, which fell down a chimney and for four days furnished a first-class indication of a ghost, was found recently in the home of Albert Wenzler, hat manufacturer, at No. 748 Chinese avenue.

The Wenzlers and their four children began to hear strange noises above their living room fireplace Saturday. The family dog investigated and the noises increased. They occurred at intervals night and day.

Mrs. Wenzler became so nervous that plans were made to tear down the chimney, when a door above the mantle was opened and the bedding, tied pigeon stepped into the middle of the room.

The pigeon was identified by leg-bands as belonging to William Holter of No. 318 Old Bergen street, Jersey City. Holter, a fireman of Engine Company No. 15, is a member of the Jersey City Racing Pigeon club. The bird was one of twenty racing from Washington to Jersey City.

Informal.

Natural heat is supplied for campers in the recently completed camp ground in Hawaii National park. This is accomplished by building the fireplaces about 100 feet from the edge of the forest of Halemauau. Over hot cracks comes up heated air, free of gas, smoke or ashes, says a bulletin of the Department of Interior. One of the advantages of these "fireless cookers" is that they are always ready for the next meal. A recent party of 35 persons baked their potatoes, boiled their coffee, and did all their cooking in the natural fireplaces.

New Mexico Claims

Land Held by Texas

Austin, Tex.—Land held by the state of Texas in the suit instituted in the United States Supreme court by New Mexico for recovery of \$2,000,000 acres of land have been sold by the attorney general's department.

New Mexico claims the domain in dispute was part of the state of New Mexico but is now occupied by Texas because the Rio Grande river, which is the boundary of the two states, has changed its course since 1850.

The Texas brief maintains that evidence gathered by New Mexico from old Indians and Mexicans as to the course of the river in 1850 is not authentic and is of no value.

Judge Rules Bedroom

in Home Is Not Room

Youngstown, O.—A bedroom is not a room. Not in Ohio. So a judge has recently ruled. The decision will be of more than taxographical interest to members of the National Association of Real Estate Boards, who are concerned with building restrictions.

A permanent injunction based on the ruling was granted to restrain a lot owner from erecting a five room and bath house on a lot restricted to a six room house.

Woman Swallows Pins

While Laughing at Joke

Lorain, O.—Laughing at a joke almost cost the life of Mrs. Albert Buell. Mrs. Buell swallowed two pins when she laughed. Physicians extracted one. The other is sticking in her throat, and physicians fear an operation will be necessary to remove it.

FINDS CHINESE GRAVE
FOREIGN-MADE GOODS

Head of Chicago Museum Declares Nation Longs to Be More Modern.

Chicago.—Old, conservative China is no more, for the whole spirit of the Chinese people is modernized, according to Dr. Berthold Laufer, curator of the department of anthropology of the Field Museum of Natural History, who has just returned from China where he made an extensive archeological survey.

The Chinese of today are obsessed by a craving for foreign-made goods and styles in keeping with the trend of the modern republican movement, he said, in describing the last year's studies of the language and customs of the people.

More than 2,000 objects are included in the new collections which he brought back with him and which will be added to the Chinese collections at the museum.

The basic structure of the ancient civilization is shaken, he said, but he believes that the present-day conditions of brigandage and transient and he has great faith in the Chinese people. During his mission he came in contact chiefly with the upper classes and Manchurian aristocrats. He paid high tribute to the Chinese for their genuine courtesy and sympathetic understanding of his mission.

Doctor Laufer procured material from private collections, from the possession of old families and as the result of excavations undertaken by Chinese, outstanding among these being 284 pieces of medieval pottery, 123 of which fall within the time of the Sung dynasty, when the most artistic ceramic products were made.

The most striking expedition trophies, however, are an imposing carved red lacquered bed of the eighteenth century, an elaborately carved bridal chair of the same period, and a large dragon boat, each object a marvel of technical skill and labor coupled with exquisite taste. The red lacquered bed is 9½ feet wide, 14 feet long and 8 feet high, forming a veritable room in itself. The dragon boat, which is 8 feet long and 2½ feet wide, is carried around in perilous processions at the annual dragon-boat festival.

Another important acquisition consists of four court costumes, also many other bits of imperial paraphernalia of the Manchurian dynasty. Among these are a complete dress of a lady of the Manchurian aristocracy, court hats and elaborate headpieces, imperial brocades, tapestries, fans and door screens, complete set of the bows used in the military examinations for testing the strength of candidates, and numerous weapons and armor.

Among other treasures brought to the museum are 25 paintings of the Sung and Yuan periods as well as ancient tapestries, brocades and cut velvet. Numerous additions were made to the existing collections of jade and other hard stones.

It's Manchurian River Room.
Washington.—The United States Geographic board, nomenclature experts and official geographers to the government's topographic bureau, announced its decision upon names for two scenic features in Zion park, Utah. The tributary to the Virgin river, flowing south through the park, between the Mohave and the Colorado rivers, through which it flows will be known as Zion canyon.

Japan to Get U. S. Motor Trucks.
Tokyo.—The Japanese government railway has placed orders with American manufacturers for 120 motor trucks at an aggregate cost of about \$2,000,000. The trucks will be used in connection with the railway and for other purposes.

Proved.
The teacher who had written \$2.7 on the blackboard to show the effect of multiplying by ten, rubbed out the decimal point. "Now, 240, where is the decimal point?" "On the wrong," replied John.

McAdoo Manager

Next David Ladd Rockwell, national director of the movement to bring about the presidential nomination of William Gibbs McAdoo. Rockwell, an Ohioan, has been identified with his home state's politics for 25 years. He took an active part in the nomination of James M. Cox four years ago.

ONEONTA FIRE DEPARTMENT

At this time when new officers have taken and are about to take the management of our city affairs, when officers and members of commissions are about to relinquish duties well performed in the interest of the city and, more especially, when members of commissions who have served us faithfully without money reward are about to sever their official relations with us, it seems meet and proper that our citizens generally should be informed with reference to some matters of importance vital to their interests and bearing a very close relationship to the protection of their lives and property.

A striking example of development and achievement in the several departments of our city government is found in the activities and accomplishments of our fire commission and department for the fifteen years past. When the city charter became effective on January 1, 1913, we were provided with one of the most efficient volunteer fire departments in the state. The fire commission recognized this fact but felt that the proper protection of lives and property of our citizens required that a paid fire chief and department be provided; that public necessity demanded constant watchfulness and attention, which could be provided only through a paid department. A paid fire chief and department were employed, a horse-drawn apparatus was provided, and a trained team of horses purchased.

The team and apparatus were in service about three years, when a combination pumping engine equipped with hose and chemical with gas-driven motor, mounted on a motor truck was added to the equipment. Next was provided an American, LaFrance hook and ladder truck, after which the commissions called the attention of the late George I. Wilber to the fact that more apparatus was needed, and through their influence and the generosity of Mr. Wilber an American-LaFrance steamer was provided.

The Board of Fire Commissioners, with a firm determination to be satisfied with nothing but the best in service and equipment, next caused to be installed an entirely new fire alarm system with underground wires on all principal streets, after which was provided a Foamite-Childs combination pumper equipped with hose and chemical, and mounted on a motor truck.

The city owns at the present time one American-LaFrance 655 gallon combination pumper, one American-LaFrance hook and ladder truck, combination hose and chemical, one American-LaFrance No. 2 steamer, one Foamite-Childs combination pumper, one Ford truck with hose and chemical, and one Reo chief's car. The total hose carrying capacity of all the apparatus is 4,995 feet. This apparatus is fully paid for from the regular budgets except a small balance due on apparatus purchased in 1923. The value of all apparatus is \$20,000. Moreover, more than four-

been saved to property owners of the city since 1909 over and above the total cost of maintenance of the fire department, by the reduction of fire insurance rates during such period. These rates are fixed and classifications are made by the Board of Fire Underwriters, who have classed our Fire department with such cities as Buffalo, Rochester and Syracuse, giving us a first class rating, which carries with it the lowest fire rate any city can have. This has been accomplished by the present department which is conceded by all representatives of the State Board of Fire Underwriters to be one of the best managed, best equipped and most efficient in the state.

It is pleasing to note that all this equipment, including 4,995 feet of hose, has been purchased and these results accomplished without the issuance of bonds and without pledging the credit of the city in any manner whatsoever, and is the result of careful planning, intelligent foresight, and the great interest taken in the department and welfare of the city by the Board of Fire Commissioners, which consists of George B. Baird, L. C. Millard, C. D. Townsend, and Charles M. Wright.

Mr. Baird, who retires from the commission this month, has assisted in providing the apparatus for the city by paying for the same in cash from his own private funds, and obtaining all discounts and advantages for the city by such cash payments, and has leased such apparatus to the city without profit and allowed rental to be applied in installments on the purchase price. As above noted, these installment payments have been made from the yearly budgets of the department, in which has been a balance of each year.

It is fortunate for the city that Messrs. Wright, Millard, and Townsend are to remain as fire commissioners with Herbert C. Getman, the newly appointed member. It is unfortunate, however, that the present mayor was unable to persuade Mr. Baird, who has been chairman of the commission for twelve years, to remain. But the latter felt that an opportunity should be given others who might better suit in the further development of the department. We are sure that citizens generally appreciate the conscientious service and generosity of Mr. Baird and the other members of the commission, and are proud of their efficient fire department, who will continue to be alert to protect us, our homes, and property.

Leslie M. Farnham, retired partner in the Farnham Millard partners firm, will be succeeded by an expert cook. You will find the best lunches to go, over taste and the best hot coffee in city.

Will open every day at 6 a. m. to 12 noon every morning, with breakfast or supper.

Let's have the Town hot coffee. Hot coffee put up in packages to take out for parties, etc. Opposite department store, Wm. George, printer. advt 21

The study of food is the most important of all studies. The study of coffee has produced the excellent flavor of Bluebonnet Bluebonnet coffee. advt 24

DELAWARE COUNTY NEWS

(Continued from Page 2.)

Students in Franklin Tuesday afternoon. Charles Reiderman also spent the day there. Prof. E. W. Smith, professor of English and history in Colgate university, will deliver a lecture in the church Saturday evening, Jan. 19, at 8 o'clock. Subject: "The Flying Buttresses of Democracy," a discussion of the school, the church, the municipal government, the shop and the home in the light of present day problems, such as the burden of unpaid debts, race hatreds, class conflicts, unwise laws, unemployment and crime—a thoroughly up-to-date and vital message. Be sure to come. Admission 40c and 25c, children under twelve admitted free. A rare treat to all.—D. L. A. M. Grimm and staff of Arkville installed the following officers in Odd Fellows lodge Monday evening: N. G. Herbert Smith, V. G. Frank Burdick, recording secretary. Rev. Stockman, treasurer. Barton Archibald, chaplain. Delaney VanBuren, wardens. Fred Bender, con. Hugh Mitchell, O. G. Leonard Gessell, I. G. Austin Edwards, R. E. S. Albert Bender, L. E. M. Robert Jester, R. S. N. G. Jay Scrambling, L. S. N. G. W. H. Hyzer, R. S. V. G. George McLean, L. S. V. G. Henry Jester. After the installation, coffee, sandwiches and fried-cakes were served.—Mrs. Charles Reiderman spent last week with Walton friends.—Mrs. Elizabeth Hunt of Walton has been spending the week with Mrs. Harry Munn.—The Epworth league cabinet meeting was held at Harry Barlow's Wednesday evening. Plans were made for a Valentine social February 15.—Twenty-five were present at the Home Bureau meeting Thursday. The next meeting will be held February 14. Mrs. Gardner will be present and give the color lesson in connection with the one-piece dress.

CARPENTERS BUSY.
Harnhart and Brundage Remodeling Newly Acquired Residence.
North Kortright, Jan. 14.—Improvements on the former Bullis house, recently purchased by Messrs. Harnhart and Brundage, proprietors of the E. & B. creamery plant at West Harpersfield, have been rushed during the recent mild weather, several carpenters being employed. An outside chimney

has been built and the roof of the building re-shingled. New doors are being laid and other inside changes made which will quite modernize the interior. When the work is completed the house will be occupied by Will Oliver, an employee of the E. & B. Dairy company.

New Milk House.
Thomas McAuley has had a nice, large building erected to serve as an ice house and milk house combined. It is up to date in every particular and adequate for all needs in the line of caring for milk.

William R. Turnbuehl, too, has built a convenient new milk house, with concrete foundation, floor and vat. His old, dilapidated, portable milk house will be relegated to the hen yard and used as a hospital for aged and indigent folk.

Collecting Taxes.
Mrs. John Haynes of Bloomville was at Thomas McAuley's Saturday for the purpose of receiving taxes from residents of this part of the township of Kortright.

Hard "Skidding."
With the state and road tax at the rate of a little more than \$25 per \$1,000 assessed valuation, with eggs selling at 30 cents a dozen, with another big cut in the price of milk, while feed prices are still high, it looks as if the farmers of this section have rather hard "skidding."

They Like Florida.
Judging from messages received by numerous friends here, the Rowland and Porter families are delighted with the climate and products of Florida, and are thoroughly enjoying their stay at Clearwater on the western coast.

Delving Track.
J. E. VanDusen has engaged Fred Jones of Harpersfield to drive one of his trucks.

Birth.
Rev. and Mrs. R. R. Irwin are receiving congratulations on the birth of a son at the Parshall hospital, Oneonta, Saturday evening, Jan. 12.

Say folks! Let me tell you one thing. Piwa tea is the very best Japanese tea you can buy. advt 61

Prevent Cripples—build resistance with SCOTT'S EMULSION

Unsettled

Photo is of Mrs. Grace Cheney Barratt of San Francisco, whose recent trial for the murder of her husband, Harry Barratt, resulted in a hung jury. She testified her husband killed him if in a fit of despondency.

HOMESPUN YARN

Prepare a budget of 1924 expenses, and hold to it.

Aunt Ada's axiom: The smallest thing that does the largest good is a smile.

Dates or prunes stuffed at home are as healthful as they are delicious for the end of the meal.

It's nice to have cut flowers in the house, but it isn't so nice if no one removes the dead and dying.

Everyone admires a woman who seems reposeful. Poise means keeping calm and unfustered by little things.

Make your lemon rinds do double duty. Keep one or two near the sink, and when your hands are stained rub them with the rind. Most stains will come right off.

Rare beauties and distinctions in lines, finish and upholstery—and the great mechanical luxury of an engine that *actually improves with use!* The wonderful Willys-Knight sleeve-valve engine is the same type of engine used in the finest cars of Europe. See the Willys-Knight—go for a good ride!

French Vanilla Ice Cream

(Made with Fresh Laid Eggs)

THE NEW Purity PRODUCT

Made with Fresh Eggs

Pure Mexican Vanilla

Selected Cane Sugar Whole Milk and Cream

LIKE MOTHER MADE Imagine the Ice Cream your mother used to make. Heavy rich cream and whole milk, cane sugar, pure vanilla and lots of good, fresh eggs cooked into a tempting custard and frozen in the old-time crank freezer! You'll remember that it was mighty good and many times you have doubtless craved for a dish of that old fashioned home made ice cream.

SMOOTH RICH DELICIOUS Today we know such ice cream as French Vanilla and you may now have it as a new Purity product at all the best ice cream shops.

FRESH LAID EGGS Purity French Vanilla is in reality the kind of ice cream mother made, but it is scientifically purer and therefore better because the milk and cream are pasteurized, it is flavored with the Finest Mexican Vanilla and sweetened with selected cane sugar, the eggs are the freshest that can be bought and both the yolks and whites are used.

PURE MEXICAN VANILLA When these ingredients are properly balanced and proportioned they are frozen in nicked brine freezers to just the proper consistency under the direction of experts of years experience. And during the entire process it is not touched by the human hands.

For food value, flavor, velvety smoothness and consistency **PURITY FRENCH VANILLA** measures up to the highest standards of the most exacting

Try some today. You'll say it is the best ice cream you ever ate.

ONEONTA ICE CREAM COMPANY

McAdoo Manager

Next David Ladd Rockwell, national director of the movement to bring about the presidential nomination of William Gibbs McAdoo. Rockwell, an Ohioan, has been identified with his home state's politics for 25 years. He took an active part in the nomination of James M. Cox four years ago.

NEARLY DOZEN BAD CHECKS

Floyd TenBroek Welcomed Back to Oneonta by Officer Otto with Warrant for Arrest—Believed Guilty of Passing Many Bad Checks.

Floyd TenBroek of this city was arrested last evening by Officer Otto as he alighted from the 3:20 D. & H. train from Binghamton on a warrant issued by City Judge L. D. VanWoert charging the passing of worthless checks under section 1232-A of the penal law of the state. While the matter is far from a settled one, the police department of the city believe him guilty of passing nearly a dozen worthless checks in this city. He was held in the city jail last evening and will be arraigned this morning before Judge VanWoert.

TH Arrest You—You Arrest Me.

One of the most ludicrous circumstances which has come to the attention of the local police authorities in some time occurred last evening at about 8:20 o'clock when Clarence Berner of 73 Spruce street arrested Marshall VanDusen of the same address on a charge of assault in the third degree, and, whether before or afterward has not yet been determined at police headquarters, VanDusen arrested Berner on an identical charge.

Then Berner turned VanDusen over to Officer Otto on the charge and VanDusen turned Berner over, though the order of these two acts has not as yet been ascertained. Both men were released in bail of \$500 for appearance this morning at 8:30 o'clock.

It is understood that the argument was slight, and that the combat was of a similar nature.

Public Intoxication Arrest.
W. Fairchild of 24 River street was arrested on Chestnut street yesterday afternoon at 1:15 o'clock by Officer Terrell on a charge of public intoxication. He was held in the city jail and will appear before Judge VanWoert.

Charged With Reckless Driving.
Robert Fuller was arrested yesterday by Officer Simmons on a charge of reckless driving, and his case will also come up in city court this morning.

RHODES SCHOLARS NAMED

Will Enter Oxford University in October—Chosen Must Be Approved.

Swarthmore, Pa., Jan. 14.—Robert B. Brode of the California Institute of Technology, Pasadena, Cal., and Israel Truman of Washington university, St. Louis, Mo., won the two appointments as Rhodes scholars-at-large at the election held yesterday in New York. The results of the election, which is subject to the ratification of the Rhodes trustees, were announced tonight by Frank Aydelotte, president of Swarthmore college and American secretary to the Rhodes trustees.

Brode is a physicist and will do research work at Oxford in theoretical physics in connection with the Quantum theory. Since 1921 he has been an assistant and graduate student under Prof. Millikan at the California Institute of Technology.

Truman was born at Odessa, Russia. He will do research work at Oxford on ancient jurisprudence.

The scholars-elect will go into residence at Oxford in October, 1924. The committee of selection was presided over by President F. C. Ferry of Hamilton college, Clinton, N. Y.

Just Read—Nearly new 3-room house, with bath and all modern improvements. Natural wood finish, polished floors, concrete cellar. Lot 32x154. Garage and henhouse. Central location. Price \$2,000. Box 17, H. Foster, 9 Pine street. Phone 922. advt 21

SOME LIKE IT HOT and some like it cold—real brown bread, Boston style—almost a meal in itself.

Made it BEST with **DAVIS BAKING POWDER**

Ten Miles Long

What is said to be the longest petition ever submitted to Congress is shown here. It contains names of 35,346 persons who want taxes reduced. Representative George H. Darrow of Pennsylvania made the presentation. Left to right: Speaker Gillette, Representative Darrow, and Charles T. Jenkins, editor of the Farm Journal, who collected the signatures.

FROM D. & H. BULLETIN

Interesting Record of Timothy Mahoney of Division Street Covers 48 Years of Continuous Service.

The following summary of the record of Timothy Mahoney of 8 Division street, which is published in the D. & H. Bulletin issued this morning, and which covers 48 years of continuous service, will certainly prove interesting to his many friends in the city and vicinity:

"One month before he had reached his eleventh birthday, Timothy Mahoney, settled Delaware and Hudson trainmen, joined the construction force then engaged in building the Albany and Susquehanna railroad, now the Susquehanna division of our system, as a water boy. That was on May 1, 1887. The 'Blue Cut,' a short distance north of the station at How's Cove, was being negotiated at that time, and it was there that he began his railroad career. He followed the construction men until they reached Nineveh Junction, carrying water, driving to, and making himself useful otherwise, and then, on April 1, 1888, he became a track laborer in the service of the company. He was pensioned on May 31, 1888, at which time he had completed forty-eight years of continuous service.

"He was born aboard ship on the Atlantic ocean, a few miles outside of the harbor of New York, on June 12, 1837, a son of the late Patrick Mahoney, who had followed the life of a farmer while living in the 'old country.' Arriving in the states, the family settled in the vicinity of Lutter, and the father secured employment in the building of the Adirondack railway, now known as the North Creek branch of the Delaware and Hudson system. During 1859 or 1860, he relinquished his position and moved, with his family, to South Amsterdam, but re-entered the service of the company in 1863 and continued therein until the time of his death. Meanwhile, the family resided in the vicinity of Glens Falls, a point of railroad distinction in the south end of the yards at Oneonta.

The son's relationship with the maintenance of way department began at Oneonta. He was assigned to John Burns, a track foreman, then employed under M. L. Dorsey, supervisor. He was made a foreman of track work in 1875, and for this work was paid \$20 a month. A short time later Mr. Dorsey was transferred to the Saratoga division, and in May, 1874, Mr. Mahoney was sent to Dalton Springs. There he was placed in charge of an extra gang engaged in keeping in condition a track leading to an ice house at Round Lake, and from which the contents were being hauled to Albany, and was used likewise where occasion demanded in that vicinity. On July 1,

1874, he was sent to Saratoga Springs and remained there until he entered train service as a brakeman on August 1, 1887.

His recollection of the early physical features of the Susquehanna division are very vivid. The funds provided for the construction of the road were very limited, he says, and cuts were made as narrow as possible and the work of grading was much restricted for the same reason. The early rails were very light and were known as the "chair" rail, due to the nature of the casting, in which the ends were joined together. The first "fish" plates were used when the third rail was put down, in order that both cars of narrow gauge and broad gauge might be run in the same train. The first split switches to be used, so far as he can recall, were installed in the Oneonta yards in '82. The men employed in that work had heard of the introduction of these switches on the western roads some time previous, however.

At Central Bridge, when that village was the terminal of the road, there was an engine house and turntable about 500 feet south of the bridge leading to Schoharie Junction and at the west side of the track. A company boarding house was also maintained in this same part of the village, and was conducted by "Jim,"

in the work of constructing the road, as well as those employed on the work trains, were patrons of that house. Oneonta was considered the poorest settlement on the line of the new road. Cobleskill, Unadilla and Bainbridge were much more prosperous, he says.

Many of the earlier physical characteristics of the road have been obliterated in obedience to the progress which has been made in recent years. The third rail was eliminated many years ago, as we all know; the road has been double tracked; station buildings have either been reconstructed or new ones have been built; many bridges, particularly trestles on Richmondville hill, have been eliminated, and no trace of them remains today, and of the improvement in equipment and operation which has been able to see in its many phases, we are conversant.

In October, 1875, he married Margaret Kelley, of Saratoga Springs, she died in the spring of 1924. He was a member of the Brotherhood of Railroad Trainmen, in social standing of the Delaware and Hudson Veterans' association, and of St. Mary's Roman Catholic church of Oneonta. He resides with a sister, Mrs. William Shields, whose husband served the company in train service and otherwise for more than forty-seven years and is now a pensioner.

Dance at Jay's hall Wednesday evening, January 16. Music by Pease's Delhi orchestra.

NEW ROTARY CLUB

Youngest Member of International Organization Installed at Cooperstown Last Evening

Governor Edwin R. Weeks Presided at Inauguration Ceremony at New Oneonta Hotel, Cooperstown—Oneonta Club in Charge of Proceedings—Village Choir Makes First Appearance

To our Rotary leaders these lines we devote.

Through it all in the morning we pray you to note.

Our honest endeavor to record and to quote.

What the Rotaries said ere the Rotary wrote.

Cooperstown Rotary club, youngest member of the great family of Rotary International, was received into the parent organization and set on its way rejoicing and with high resolve in its heart last evening with ceremonies which contained just the right amount of the two constituents of every Rotary gathering, a spirit of good fellowship manifesting itself in song, jest and frolic and a dose of seriousness befitting the aims, purposes and objects of the organization. The affair was held at the New Oneonta Hotel in Cooperstown and was of a nature so enjoyable and so inspiring that it is doubtful if any man present will ever forget even its least important details.

The affair was in charge of Oneonta Rotary club, which has acted as foster father for the infant club, and able committed from that organization had labored hard for that success which was so in evidence last evening. District Governor Edwin R. Weeks of Binghamton presented the charter which bound the club to Rotary International. Present were practically every member of Oneonta Rotary and four representatives from the Amsterdam club, President "Jack" Kennedy, Rev. Dr. Galbraith, Charles Harrows and Prof. Wilbur H. Lynch, a former resident of this city.

Proceedings commenced with a dinner supreme to the preparation of which Mine Host of the Inn by the Foot of the Lake must have given considerable thought. It should be sufficient to say that it could not have been improved upon in any particular.

The chairman and toastmaster was Roscoe C. Briggs of Oneonta, who as a representative of "Governor Ed." had done much toward the organization and early growth of Cooperstown Rotary and a most capable and delightful toastmaster he was, introducing each speaker with remarks of just the right length and character.

Governor Weeks Presents Charter. The first speaker was Governor Weeks, who, in his thoroughly charming and unique manner, awarded the club its diploma of official recognition. Governor Weeks stated that it was entirely proper that there should be a Rotary club in Cooperstown, made famous by James

have been translated into as many tongues as also speak the language of Rotary. He characterized Rotary as the balance wheel between the centrifipetal force of individual endeavor and the centrifugal force of social service and charged his hearers to be ever alert to carry out and exemplify the principles and ideals for which Rotary stands. Rotary is striving to make the world a better place, he said, but through its very nature it can unlock doors which are closed to the knocks of other social agencies. In presenting the charter Governor Weeks urged the members of Cooperstown Rotary to regard it as a priceless thing and to strive to live up to what it represents.

In accepting the charter, Rev. Clarence E. Brown, president of Cooperstown Rotary, spoke of the long desire of the members for Rotary and of their increasing fondness for it. He thanked Governor Weeks warmly for his kind words to the club and added a word of appreciation for the officers of Oneonta Rotary and for the care and instruction of "Granddaddy" Briggs.

At this stage of the proceedings, Louis B. Capron arose to remark upon the unseemly manner in which the infants were attired and upon his motion they were instructed to go without and not return until properly clad. When they did return each wore a baby bonnet, becoming or otherwise, and at the head of the procession rode President Brown, proudly erect in a baby carriage. Applause of a violent nature.

The parents' charge was then delivered by President David H. Mills of Oneonta Rotary, who gave some advice in regard to club procedure and urged the new Rotarians especially to view Rotary in the light of its ethical obligation.

During the course of his remarks Dr. Mills presented Cooperstown Rotary with a Rotary table bell, the gift of the Oneonta club.

Village Choir Entertains.

It was then announced that the Village Choir, composed of the most unusual singer who could be found anywhere in the county, would entertain. While the choristers were preparing, a few words of welcome to the Rotaries were extended by President Kennedy of the Amsterdam club.

The choir, composed of Jerry E. Wilson, Andrew C. Lange, Dr. Norman W. Germain, Herbert C. Geiman, J. J. Hookhead, Leslie Gardner, Dr. L. R. Lang, Ralph S. Wyckoff, Elsworth Scatcherd and Charles Van Dusen, finally made its appearance clad in their dancing and with facial improvements of whatever kind they could contrive. The organization held the indicated attention of the spectators for many minutes and from time to time announced that "there was ever though possible, a song in which the members of Cooperstown were set forth and various comparisons between it and various made, was launched by a new and work status of which was a direct copy from some member of the Cooperstown club. The highly entertaining song was sung and the audience was very much amused. The song was the product of the Cooperstown member of the firm of Capron company. His name is withheld upon request.

The Village choir furnished the principal entertainment feature of the evening but there was frequent

singing led by Jerry E. Wilson of Oneonta Rotary and President Brown of the Cooperstown contingent and there were occasional interruptions of the speeches by the wild alarms of clocks hidden. If the Oneontians are to be believed, the Cooperstown men with the purpose of breaking up the party.

Talks by Dr. Dunn and Prof. Curtis.

Following the appearance of the choir, the seriousness resumed once more. The next address was by Dr. George J. Dunn of Oneonta, who spoke on "Business and Professional Ethics." Dr. Dunn spoke of the necessity of Rotarians living by the Golden Rule and urged a strict observance of ethical principles as the first duty of every Rotarian.

Two beautiful solos by Jerry Wilson were followed by an address by Prof. Arthur M. Curtis of Oneonta upon "Rotary and the Rising Generation." Prof. Curtis spoke of the charms and joys of youth and discussed the present opportunities of the rising generation as compared with those of former days. Speaking of the opportunities which Rotary has to aid the rising generation he added that an eye be kept upon the big problems of society, the fundamental things which must be done. His plea was that Rotarians aid in the solving of social problems in a sane, organized and legal manner.

Following the extending of greetings from Poughkeepsie by Henry T. Hoag, the meeting closed with the singing of a Rotary song to the tune of a "March Day." The Rotarians clapping hands as they sang.

The Oneonta Rotarians made the trip by trolley as guests of the trolley company and thanks were freely extended to General Manager Stratton and Treasurer Cheney for the courtesy. Each man wore a carnation, the gift of Ralph S. Wyckoff.

ENGLISH AVIATORS TO SEEK TO FLY AROUND THE EARTH

London, Jan. 14. — English aviators will try to match exploits with the American airmen when the latter start their round-the-world flight from Seattle next April, by a flight in the opposite direction.

Equipped with a powerful amphibian plane of 450 horsepower, Squadron Leader A. S. MacLennan, distinguished English pilot of long war and post-war experience, will attempt to circumnavigate the globe soon after the American team starts. He will be accompanied by Flying Officer W. N. Penberth and Engineer Sergeant Andrews, two other veterans of the air.

The route will be via Egypt, Mesopotamia, Persia, India, Burma, China, Japan, the Aleutian Islands, Canada, New York, St. Johns, N. F., and thence to Greenland, Iceland, returning to London.

NINE TOWNS OVER TOP

Encouraging Reports from Many Oneonta New Within Few Dollars of Goal in Christmas Seal Campaign.

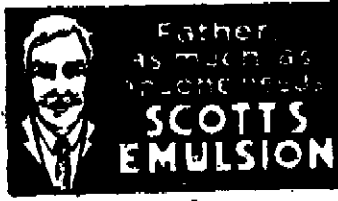

Nine towns in Otsego county are "over the top" in the Christmas Seal campaign. They are Oneonta, Richfield Springs, Springfield, Center, Hartsville, Unadilla, Edinboro, East Otsego, and Cherry Valley. This is by far the best record that Otsego county has ever made and these banner towns should give inspiration to the towns which have not made their quotas.

The quota of \$5,544 for Otsego county has not been reached but there are 2,888 letters yet to be heard from and all persons who have not yet responded to the Christmas Seal sale are urged to do so. It is expected that the towns of Maryland, Worcester and Westford should reach their quotas this week as they are all within a few dollars of the goal. Milford, Middlefield, Morris, Plainfield, and New Lisbon may reach their quotas if response from the towns is prompt and favorable.

There are thousands of boys and girls dying every year in the United States for want of one of the most plentiful and cheapest things in the world, fresh air. It doesn't cost a cent and, as the colored boy said, "It is what all outdoors is filled with nothing else but."

There is an organized effort throughout New York state to educate the younger generation to be fresh air fans, and in many other counties as well as Otsego, during the past summer a group of delicate children were selected and taken to a health camp for several weeks under the supervision of a trained worker who gave special attention to their diet and living habits. The children returned home with several pounds of added weight, a coat of tan, rosy cheeks and above all, a knowledge of how to live to keep well. This good work is handled in Otsego county by the Tuberculosis and Public Health association but adequate funds have been lacking to maintain a well equipped and satisfactory camp except for a very few children and for only a short period of time.

The financing of camps is entirely through the sale of Christmas Seals which is now going on, and the dollars sent through the mail will be used to give attention to as many children who need this care as possible.

Scott's Emulsion

Why Doctors Warn Against Coffee or Tea for Children

THE reason is simple. Coffee and tea contain drugs which tend to irritate the delicate nervous system of children, and so upset health.

The Federal Bureau of Education includes in its rules to promote health among growing school children, the warning that "children should not drink tea or coffee at all."

Why confine the warning to children?

You are careful to protect the health of your children; why, then, take chances with your own health, when a change from coffee or tea is made so easy by Postum.

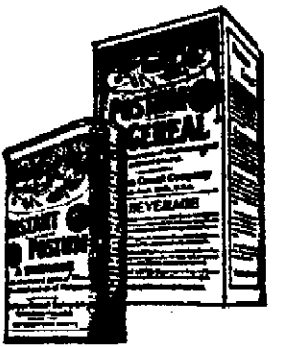

Postum is a delicious, pure cereal beverage—ideal for children and satisfying to adults.

Postum for Health

"There's a Reason"

Your grocer sells Postum in two forms: Instant Postum (in tin) prepared instantly in the cup by the addition of boiling water. Postum Cereal (in package) for those who prefer the flavor brought out by boiling fully 20 minutes. The cost of either form is about one-half cent a cup.
